**RE: RIVER RECYCLING, INC.
CONDITIONALLY EXEMPT SMALL
QUANTITY GENERATOR
OHD 004 187 035
CUYAHOGA COUNTY
NOV**

Mr. Thomas Murphy
River Recycling, Inc.
4195 Bradley Road
Cleveland, Ohio 44109

Dear Mr. Murphy:

Thank you for accompanying me during Ohio EPA's April 21, 2011, inspection of River Recycling's facility in Cleveland, Ohio. I inspected River Recycling to determine its compliance with Ohio's hazardous waste laws as found in Chapter 3734. of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC). My inspection included a review of company operations and written documentation. During the inspection I also helped you identify ways to prevent pollution by reducing waste.

River Recycling is a buyer and seller of scrap metal, specializing in brass and bronze. The Bradley Road facility currently generates one hazardous waste stream, spent mineral spirits (D001), from a parts washer serviced by the Safety-Kleen Company. The facility's rate of generation makes River Recycling a conditionally exempt small quantity generator of hazardous waste.

In addition to the inspection for compliance with Ohio's hazardous waste rules, the facility was inspected for compliance with Ohio's used oil rules and universal hazardous waste rules.

The following violations of Ohio's hazardous waste and used oil rules were found during this inspection. In order to correct these violations you must do the following and send me the required information **within 30 days** of the date of this letter:

1. Universal Waste Lamp Labeling, OAC 3745-273-14 (E):

Universal waste lamps or containers or packages of lamps must be labeled with the words "Universal Waste - Lamp(s)" or "Waste Lamp(s)" or "Used Lamp(s)". At the time of my inspection the boxes of the waste lamps were not labeled. Please submit a picture documenting the waste lamps or their containers are properly labeled and indicate in your written response how waste lamp handling procedures have been changed to prevent a re-occurrence of this violation.

2. Used Oil Labeling, OAC 3745-279-22 (C):

All containers, above ground tanks, and fill pipes used for underground tanks, that are used to accumulate used oil must be clearly labeled or marked "Used Oil." At the time of my inspection an above ground tank containing used oil was observed at the facility that did not have any marking indicating used oil. This is a violation of OAC 3745-279-22(C). To return to compliance with this rule, submit a photograph of the used oil tank labeled "used oil."

Enclosed you will find a copy of the checklists that I completed as a result of the inspection. Should you have any questions, please feel free to call me at (330) 963-1231. You can find copies of the rules and other information on the Division of Materials and Waste Management's web page at: <http://www.epa.state.oh.us/dhwm/>.

Sincerely,

Tom Roth
