RE: REVLIS CORP., OHD 061 022 828, SUMMIT COUNTY, LQG NOV/PRTC

Dear Mr. Silver:

On August 21 and August 30, 2007, this writer, representing Ohio EPA, Division of Hazardous Waste Management (DHWM), visited Revlis Corporation (Revlis), located at 255 Huntington Avenue, Akron, Ohio to conduct a hazardous waste compliance evaluation inspection (CEI). Revlis was represented by Jack Hale, Tom Wilkinson and you.

The purpose of the inspection was to determine Revlis' compliance with Ohio's hazardous waste laws as found in Chapter 3734. of the Ohio Revised Code (ORC) and Chapter 3745. of the Ohio Administrative Code (OAC). The inspection included a review of the facility's operations and records, as well as the management of wastes. Revlis was inspected for the requirements of a large quantity generator (LQG) of hazardous waste.

Information obtained pertaining to process descriptions, hazardous waste generation and amount, and hazardous waste management units, is specified on the Process Description-Waste Activities Summary Sheet within the enclosed inspection checklist.

Based on the inspection, Ohio EPA has identified the following violations:

1. **Personnel Training, OAC rule 3745-65-16(C)**: Facility personnel must complete training on hazardous waste management and emergency response procedures.

Revlis failed to provide annual personnel training to Plant and Lab employees during calendar year 2006.

To abate this violation, Revlis must provide personnel training and submit the following documentation:

- A copy or description of the training topics provided to each employee who requires training;
- A copy of the sign-in sheets documenting the date(s) when training was provided to each employee; and

- A list identifying each Revlis employee who fills the job title of Plant Employee, Lab Employee, Plant Supervisor/Operations Manager/Warehouse Foreman and Emergency Coordinator and the date they received training in calendar year 2007.

2. **OAC rule 3745-65-54(D), Amendment of Contingency Plan:** The contingency plan must be reviewed, and immediately amended, if necessary, whenever: (D) the list of emergency coordinators changes.

Revlis failed to amend the contingency plan to update the list of emergency coordinators. On August 29, 2007, Revlis updated the plan and distributed it to emergency authorities. **No further response is required to abate this violation.**

3. **OAC rule 3745-279-22(C), Used Oil Storage Requirements:** Generators must store used oil in containers that are labeled with the words "Used Oil."

Revlis failed to label three, 55-gallon drums with the words "Used Oil." During the August 21, 2007 inspection, Revlis abated this violation through labeling the drums with the words "Used Oil." **No further information is required to abate this violation.**

Ohio EPA offers the following comments:

1. The spill control equipment located near the hazardous waste accumulation area should be stored in an orderly manner and kept free of dust/debris. **Please notify me of your corrective actions.**
2. All containers of non-hazardous waste should be appropriately labeled and kept closed.
3. Ohio EPA has created an electronic news service to provide facilities with quick and timely updates on news and events related to hazardous waste activities in Ohio. For more information, please refer to: <http://www.epa.state.oh.us/dhwm/listserv.html>
4. Technical assistance and pollution prevention information is available from Ohio EPA at: <http://www.epa.state.oh.us/ocapp/ocapp.html>
5. You may be able to reduce the amount of waste your facility generates by finding ways to recycle, reduce, or eliminate it. Ohio EPA's Office of Compliance Assistance and Pollution Prevention (OCAPP) provides free compliance and pollution prevention assistance on environmental issues related to air, land, and water. Should your facility be interested in receiving a free pollution prevention assessment in the future, please contact me or OCAPP. OCAPP may be contacted at (800) 329-7518 or via the internet at: <http://www.epa.state.oh.us/opp/ocapp.html>

The above violations must be immediately addressed and all of the above requested documentation must be submitted to my attention at the Ohio EPA within 30 days of receipt of this letter. You may find copies of the hazardous waste rules and other information on Ohio EPA's web page at: <http://www.epa.state.oh.us/dhwm>.

Ohio EPA's failure to list specific deficiencies or violations in this letter does not relieve Revlis from having to comply with all applicable regulations.

Should you have any questions, please contact me at (330) 963-1108.

Sincerely,
