RE: SOBERAY & SONS LTD., OHR000135939, CUYAHOGA COUNTY, NOV-PRTC

Dear Mr. Soberay:

On October 12, 2010, this writer, representing Ohio EPA, Division of Hazardous Waste Management (DHWM), visited Soberay & Sons, Ltd., located at 5500 Walworth Avenue in Cleveland, Ohio to conduct a hazardous waste compliance evaluation inspection (CEI). Soberay & Sons was represented by you.

The purpose of the inspection was to determine Soberay & Sons' compliance with Ohio's hazardous waste laws as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC). The inspection included a review of the facility's operations, as well as the management of wastes. Due to unevaluated waste streams at the facility, Soberay & Sons' hazardous waste generator category could not be confirmed.

On November 3 and December 27, 2010, Soberay & Sons submitted documentation concerning waste evaluation information and used oil management.

Based on the inspection, Ohio EPA identified the following violations:

1. **OAC rule 3745-52-11, Waste Evaluation:** Any person who generates a waste must evaluate that waste to determine if it is a hazardous waste in accordance with the criteria set forth in OAC Chapter 3745-51.
 - A. Soberay & Sons failed to evaluate the waste stream consisting of coolant related sludge. This waste stream is currently being accumulated in three, 55-gallon drums at your facility. To abate this violation, submit waste evaluation information for the coolant related sludge.
 - B. Soberay & Sons failed to evaluate the waste stream consisting of waste paint/spent solvent generated from painting activities at the facility. To abate this violation, submit evaluation information for the waste paint/spent solvent.
2. **OAC rule 3745-279-22(C)(1), Used Oil Storage Requirements for Generators:** Used oil generators must store used oil in containers and tanks that are in good condition and not leaking. The containers and aboveground tanks must be labeled with the words "Used Oil."

Soberay & Sons failed to label seven, 55-gallon drums with the words "Used Oil." On November 3, 2010, Soberay & Sons submitted photographs to demonstrate that the drums were labeled with the words "Used Oil." **Based on submitted documentation, this violation has been adequately abated. No further response is necessary.**

Ohio EPA offers the following comments:

1. Ohio EPA has created an electronic news service to provide facilities with quick and timely updates on news and events related to hazardous waste activities in Ohio. For more information, please refer to: http://ohioepa.custhelp.com/cgi-bin/ohioepa.cfg/php/enduser/doc_serve.php?2=subscriptionpage
2. The Ohio Department of Development's Office of Energy Efficiency may be able to help with energy efficiency issues. For more information, please refer to: <http://development.ohio.gov/Energy>
3. You may be able to reduce the amount of waste your facility generates by finding ways to recycle, reduce, or eliminate it. OCAPP provides free compliance and pollution prevention assistance on environmental issues related to air, land and water. Should your facility be interested in receiving a free pollution prevention assessment in the future, please contact me or OCAPP. OCAPP may be contacted at (800) 329-7518 or via the internet at: <http://www.epa.ohio.gov/ocapp>
4. You may find copies of the hazardous waste rules and other information on Ohio EPA's web page at: <http://www.epa.ohio.gov/dhwm>

The above violation must be immediately addressed and all of the above requested documentation must be submitted to my attention at the Ohio EPA within 30 days of receipt of this letter. Ohio EPA's failure to list specific deficiencies or violations in this letter does not relieve your facility from having to comply with all applicable regulations.

Should you have any questions, please contact me at (330) 963-1108.

Sincerely,

Frank A. Zingales
Environmental Specialist
Division of Hazardous Waste Management

**USED OIL INSPECTION CHECKLIST
GENERATORS, COLLECTION CENTERS AND AGGREGATION POINTS**

NOTE: 1. A facility is subject to the federal SPCC regulations (40 CFR 112) if it is non-transportation related (e.g., fixed) and has an aggregate above ground storage capacity greater than 1,320 gallons or a total underground storage capacity greater than 42,000 gallons of oil (including used oil), and there is reasonable expectation of a discharge to navigable waters.

2. Inspectors can check BUSTR's web-site at https://www.comapps.ohio.gov/sfm/fire_apps/bust/bustr/PublicInquiry.asp to determine if a UST containing used oil is registered with BUSTR. Inspectors may call BUSTR at 614-752-7938 or a BUSTR site coordinator to report an unregistered UST or a UST that appears to not be in compliance with BUSTR regulations. A list of BUSTR coordinators by county are at: https://www.comapps.ohio.gov/sfm/fire_apps/bust/bustr/SearchByCounty.asp.
