RE: **MK MORSE COMPANY
STARK COUNTY
OHD 004 462 032
RETURN TO COMPLIANCE**

Mr. Thomas Competty
Process Engineer
MK Morse Company
P.O. Box 8677
Canton, Ohio 44711

Dear Mr. Competty:

On January 22, 2008, the Ohio EPA received MK Morse's response to the January 11, 2008, Partial Return to Compliance letter (PRTC). The MK Morse response included the following attachment:

A. Analytical Report for the floor sweepings

Based on the information submitted, it appears that MK Morse has adequately addressed the following violation:

1. **Waste Evaluation, OAC 3745-52-11.** Please note, the sample was received at TestAmerica at 22.5° C. Ohio EPA recommends that samples that are collected for volatile organic compound (VOC) testing are placed in a cooler with a temperature range of 2° to 6° C.

All other violations had previously been abated. Please respond to the remaining concerns as the reports become available.

Failure to list specific deficiencies and/or violations in this communication does not relieve MK Morse from the responsibility of complying with all applicable laws, rules and regulations.

Further be advised that any instances of non-compliance can continue as subjects of pending or future enforcement actions.

Should you have any questions or require additional information, please contact Frank Popotnik, my supervisor, or me at (330) 963-1200.

Sincerely,

Karen L. Nesbit
Division of Hazardous Waste Management
