RE: THE ROGERS COMPANY
OHD982642449
LAKE COUNTY
CESQG/NOV/RTC

Mr. Bryan Sarver
The Rogers Company
7550 Tyler Blvd.
Mentor, OH 44060

Dear Mr. Sarver:

On May 26, 2010 and June 24, 2010, the Ohio Environmental Protection Agency (EPA), Division of Hazardous Waste Management (DHWM), conducted a compliance evaluation inspection at The Rogers Company, located at 7550 Tyler Blvd., Mentor, Ohio. The purpose of the inspection was to determine the Rogers Company's compliance with Ohio's hazardous waste laws as found in Chapter 3734. of the Ohio Revised Code (ORC) and Chapter 3745. of the Ohio Administrative Code (OAC). The Rogers Company was represented by Bob Vollman and you. On May 26, 2010 the Ohio EPA was represented by me and again on June 24, 2010 with assistance from Robert Almquist.

The Rogers Company is a designer and manufacturer of displays for tradeshow exhibits, corporate events, lobbies, showrooms and retail environments. Based on the volume of hazardous waste generated, the Rogers Company is a conditionally exempt small quantity generator (CESQG) of hazardous waste.

The hazardous waste stream generated is spent solvent and solvent based paint. A non-hazardous latex paint waste stream is also generated.

On the second day of the inspection we were there to inspect the spray paint booth and its operation as it relates to hazardous waste management. The manner in which the spray paint booth is operated is in compliance with the hazardous waste rules, that is, any spent solvent or waste solvent based paint is managed as a hazardous waste. However, the Rogers Company does not have an air permit to operate the paint booth. To find out what is required to get an air permit, please contact Ms. Adrienne LaFavre at (330) 963-1250. Adrienne is the district contact for the Office of Compliance Assistance and Pollution Prevention. The Office of Compliance Assistance and Pollution Prevention is a non-regulatory program that provides information and resources to help small businesses comply with environmental regulations.

I have enclosed copies of the inspection checklists for your records. The following violation was noted:

- 1. Ohio Administrative Code (OAC) 3745-279-22(C)(1); Containers and above ground tanks that are used to store used oil must be labeled with the words, "Used Oil".**

A 55-gallon drum next to the compressor was not labeled with the words "used oil" as is required by this rule. At the time of the inspection you placed a label with the words "Used Oil" on the drum, thus abating the violation. No further action by you is required.

During the inspection I gave you a copy of guidance concerning the management of spent fluorescent lamps. The link to the following document will provide you with additional guidance: Ohio's Universal Waste Rules: Are You Handling Used Lamps Correctly?, 2008

Waste Codes for Federally Regulated Hazardous Wastes. Please list the codes for the federally regulated hazardous waste handled at the site. List them in the order they are presented in the regulations (e.g., D001, D003, F007, U112). Use an additional page or list them in the comments if more space is needed. If the waste codes are the same as listed in the most recent RCRAInfo source record, you do not need to list them. Instead just indicate the date of the most recent source record.
