RE: UPS FREIGHT, OHR000136978, CUYAHOGA COUNTY, SQG>CESQG, NOV/RTC

Dear Mr. Brown:

On October 12th and November 12, 2010, this writer, representing Ohio EPA's, Division of Hazardous Waste Management (DHWM), visited the UPS Freight facility located at 15775 Industrial Parkway in Cleveland, Ohio to conduct a hazardous waste compliance evaluation inspection. During the October 12, 2010 inspection, Bruce Nichols represented UPS Freight. During the November 12, 2010 inspection, Rob Humphrey and Jim Koenig represented UPS Freight.

The purpose of the inspection was to determine UPS Freight's compliance with Ohio's hazardous waste laws as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC). The inspection included a review of the facility's operations and the management of wastes. UPS Freight was inspected for the requirements of a conditionally exempt small quantity generator (CESQG) of hazardous waste.

Based on the inspection, Ohio EPA identified the following violations:

1. **OAC rule 3745-279-22(C)(1), Used Oil Storage Requirements for Generators:** Used oil generators must store used oil in containers and tanks that are in good condition and not leaking. The containers and aboveground tanks must be labeled with the words "Used Oil."

UPS Freight failed to label one, 55-gallon drum with the words "Used Oil." During the October 12, 2010 inspection, the drum was labeled with the words "Used Oil." **This violation has been adequately abated. No further response is necessary.**

2. **OAC rule 3745-273-13(D)(1), Universal Waste Management Standards for Small Quantity Handlers:** A small quantity handler of universal waste must contain any lamp in containers or packages that are structurally sound, adequate to prevent breakage, and compatible with the contents of the lamps. Such containers and packages must remain closed and must lack evidence of leakage, spillage, or damage that could cause leakage under reasonably foreseeable conditions.

UPS Freight failed to accumulate universal waste lamps in a closed container. During the November 12, 2010 inspection, the container was closed. Additionally, UPS revised its internal audit to include universal waste management. **This violation has been adequately abated. No further response is necessary.**

Ohio EPA offers the following comments:

1. During the inspection, damaged cardboard boxes containing organic peroxide material were observed in the Hazardous Materials Bay. These boxes should be placed into an appropriately labeled overpack container. As a CESQG, UPS may generate up to 220 pounds in a calendar month and accumulate up to 2,200 pounds of hazardous waste on-site for any length of time.
2. You may find copies of the hazardous waste rules and other information on Ohio EPA's web page at: <http://epa.ohio.gov/dhwm>
3. Ohio EPA has created an electronic news service to provide facilities with quick and timely updates on news and events related to hazardous waste activities in Ohio. For more information, please refer to: http://ohioepa.custhelp.com/cgi-bin/ohioepa.cfg/php/enduser/doc_serve.php?2=subscriptionpage
4. The Ohio Department of Development's Office of Energy Efficiency may be able to help with energy efficiency issues. For more information, please refer to: <http://development.ohio.gov/Energy>
5. You may be able to reduce the amount of waste your facility generates by finding ways to recycle, reduce, or eliminate it. Ohio EPA's Office of Compliance Assistance and Pollution Prevention (OCAPP) provides free compliance and pollution prevention assistance on environmental issues related to air, land and water. Should your facility be interested in receiving a free pollution prevention assessment in the future, please contact me or OCAPP. OCAPP may be contacted at (800) 329-7518 or via the internet at: <http://epa.ohio.gov/ocapp/contact.aspx>

Information obtained pertaining to UPS Freight's processes and waste generation is discussed on the Process Description-Waste Activities Summary Sheet within the enclosed inspection checklists.

Ohio EPA's failure to list specific deficiencies or violations in this letter does not relieve UPS Freight from having to comply with all applicable regulations.

Should you have any questions, please contact me at (330) 963-1108.

Sincerely,

Frank A. Zingales
