Dear Mr. Miller:

On February 11, 2011, the Ohio Environmental Protection Agency (Ohio EPA), Division of Hazardous Waste Management, conducted a compliance evaluation inspection (CEI) at Venture Lighting located at 32000 Aurora Road, Solon, Ohio. The facility was inspected to determine its compliance with Ohio's hazardous waste laws as found in Chapter 3734 of the Ohio Revised Code (ORC), and the rules promulgated thereunder in Chapter 3745 of the Ohio Administrative Code (OAC). Ohio EPA was represented by myself and Sherry Slone, and Venture Lighting was represented John Larker.

The inspection included a review of the facility's operations, management of wastes, and records. The facility was inspected for the requirements of a Conditionally Exempt Small Quantity Generator (CESQG) of hazardous waste.

At this location Venture Lighting manufactures only test lamps and light bulbs. Consumable lamps and light bulbs are now manufactured in India. Wastes are generated from a parts washer, mercury from broken bulbs, mercury from a mercury vacuum, hand wash water and mop water. Any spilt mercury that is recovered is sent off for recycling. Broken lamps and bulbs are handled as universal waste.

Ohio EPA identified the following violation of Ohio's hazardous waste rules:

1. Labeling of Waste Lamps OAC rule 3745-273-14(E):

One gaylord box located in the loading dock area filled with spent lamps was not labeled "spent lamps", "used lamps" or "universal waste-lamps" as required.

Within 30 days of the date of this letter please submit a photo illustrating the box of spent lamps is now properly labeled.

A copy of the checklist completed for this inspection is enclosed. You can find copies of the rules and other information on the DHWM's web page at <http://www.epa.state.oh.us/dhwm>.
