**RE: CREATIVE PACKAGING CONCEPTS, OHD101508646, LORAIN COUNTY,
SQG>CESQG, NOV/RTC**

Dear Mr. Young:

On December 11, 2009, this writer, representing Ohio EPA, Division of Hazardous Waste Management (DHWM), visited the Wayne Pak Ltd. DBA Creative Packaging Concepts (CPC) facility located at 214 Brace Avenue in Elyria, Ohio to conduct a hazardous waste compliance evaluation inspection (CEI). CPC was represented by Diane Butler and you.

The purpose of the inspection was to determine CPC's compliance with Ohio's hazardous waste laws as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC). The inspection included a review of the facility's operations and the management of wastes. CPC was inspected for the requirements of a conditionally exempt small quantity generator (CESQG) of hazardous waste.

Based on the inspection, Ohio EPA identified the following violation:

1. **OAC rule 3745-52-11, Waste Evaluation:** Any person who generates a waste must evaluate that waste to determine if it is a hazardous waste in accordance with the criteria set forth in OAC Chapter 3745-51.

CPC failed to evaluate spent fluorescent lamps prior to disposal as a solid waste. On December 14, 2009, CPC submitted documentation that the spent lamps will be managed as a Universal Waste. **Based on submitted documentation, this violation has been adequately abated. No further information is requested.**

Ohio EPA offers the following comments:

1. Ohio EPA has created an electronic news service to provide facilities with quick and timely updates on news and events related to hazardous waste activities in Ohio. For more information, please refer to: http://ohioepa.custhelp.com/cgi-bin/ohioepa.cfg/php/enduser/doc_serve.php?2=subscriptionpage

2. Technical assistance and pollution prevention information is available from Ohio EPA at: <http://epa.ohio.gov/ocapp/assistance.aspx>
3. The Ohio Department of Development's Office of Energy Efficiency may be able to help with energy efficiency issues. For more information, please refer to: <http://www.odod.state.oh.us/cdd/oe>
4. You may be able to reduce the amount of waste your facility generates by finding ways to recycle, reduce, or eliminate it. Ohio EPA's Office of Compliance Assistance and Pollution Prevention (OCAPP) provides free compliance and pollution prevention assistance on environmental issues related to air, land and water. Should your facility be interested in receiving a free pollution prevention assessment in the future, please contact me or OCAPP. OCAPP may be contacted at (800) 329-7518 or via the internet at: <http://epa.ohio.gov/ocapp/contact.aspx>
5. You may find copies of the hazardous waste rules and other information on Ohio EPA's web page at: <http://epa.ohio.gov/dhwm>

Information obtained pertaining to CPC's processes and waste generation is discussed on the Process Description-Waste Activities Summary Sheet within the enclosed inspection checklists.

Ohio EPA's failure to list specific deficiencies or violations in this letter does not relieve CPC from having to comply with all applicable regulations.

Should you have any questions, please contact me at (330) 963-1108.

Sincerely,

Frank A. Zingales

Waste Codes for Federally Regulated Hazardous Wastes. Please list the codes for the federally regulated hazardous waste handled at the site. List them in the order they are presented in the regulations (e.g., D001, D003, F007, U112). Use an additional page if more space is needed. If there are more than 7 waste codes and they are the same as listed in the most recent RCRAInfo source record, you do not need to list them all. Instead just indicate the date of the most recent source record.
