**RE: WOOSTER BRUSH CO., OHD057262040, LORAIN COUNTY, SQG>NONGEN,
NOV/RTC**

Dear Mr. Freeman:

On April 20, 2010, this writer, representing Ohio EPA, Division of Hazardous Waste Management (DHWM), visited the Wooster Brush Co. (WBC) facility located at 870 Infirmary Road in Elyria, Ohio to conduct a hazardous waste compliance evaluation inspection (CEI). WBC was represented by Mike Martin.

The purpose of the inspection was to determine WBC's compliance with Ohio's hazardous waste laws as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC). The inspection included a review of the facility's operations and the management of wastes. WBC was inspected for the requirements of a conditionally exempt small quantity generator (CESQG) of hazardous waste.

Based on the inspection, Ohio EPA identified the following violation:

- OAC rule 3745-52-11, Waste Evaluation:** Any person who generates a waste must evaluate that waste to determine if it is a hazardous waste in accordance with the criteria set forth in OAC Chapter 3745-51.

WBC failed to evaluate spent fluorescent lamps prior to disposal as a solid waste. During the inspection, Mr. Martin committed to manage them as Universal Waste. **Based on submitted documentation, this violation has been adequately abated. No further information is requested.**

Ohio EPA offers the following comments:

- Ohio EPA has created an electronic news service to provide facilities with quick and timely updates on news and events related to hazardous waste activities in Ohio. Information obtained pertaining to WBC's processes and waste generation is discussed on the Process Description-Waste Activities Summary Sheet within the enclosed inspection checklists.

Ohio EPA's failure to list specific deficiencies or violations in this letter does not relieve WBC from having to comply with all applicable regulations.
