Re: Campbell Technological Resources, Inc.
Crawford Richland County
Compliance Evaluation Inspection
Notice of Violation/Return to Compliance

March 6, 2009

Mr. Martin Campbell, Owner
Campbell Technological Resources, Inc.
220 Lincoln Avenue
Crestline, Ohio 44827

Dear Mr. Campbell:

Thank you for accompanying me during the Ohio Environmental Protection Agency's (Ohio EPA's) February 24, 2009, hazardous waste compliance evaluation inspection of Campbell Technological Resources, Inc. (CTR) located at the address stated above. I inspected CTR to determine its compliance with Ohio's hazardous waste laws as found in Chapter 3734 of the Ohio Revised Code (ORC), and Chapter 3745 of the Ohio Administrative Code (OAC). Pollution prevention options were also discussed during this inspection. This letter will list observations I made during the inspection, and the violation found.

CTR is a recycler of electronic equipment. CTR receives personal computers which are packaged and resold to other processors/smelters for metal recovery. Additionally, other electronic equipments, received at the facility, are dismantled and circuit boards are repackaged in large cardboard boxes and send out to be processed for precious metal recovery (silver, gold, etc.). Also, CTR receives large electronic equipment and machinery which are stored and resold "as is" for reuse at other companies. CTR recycles metal such as steel, aluminum, copper, etc., that result from the dismantling of the computer/electronic machinery.

CTR it is not a generator of hazardous waste. CTR does manage spent batteries and spent light bulbs as universal waste. In addition, CTR manages used oil which is generated from the servicing of the company forklifts, and from the dismantling of non-pcb containing transformers. Please be aware of that you cannot purposely crush your spent light bulbs and still manage them as universal waste. Intentionally crushed bulbs must be managed as hazardous waste and be disposed as such. On the other hand, incidental broken bulbs should be properly containerized immediately to minimized personal exposure and can still be managed as universal waste and thus be sent off to be recycled.

I found the following violations of Ohio's hazardous waste laws. As noted below, CTR corrected the violation during the inspection.

1. OAC Rule 3745-279-22(C)(1): Labeling

Containers, aboveground tanks and fill pipes used for underground storage tanks shall be labeled or marked clearly with the words "Used Oil."

The 55-gallon drum storing used oil was not properly labeled with the words "used oil".

This violation was abated during the inspection.

The Division of Hazardous Waste Management has created an electronic news service to provide you with quick and timely updates on events and news related to hazardous waste activities in Ohio. If you haven't already, we encourage you to sign up for this free service. You can find more information at <http://www.epa.state.oh.us/dhwm/listserv.html>. Please feel free to share this information with your colleagues.

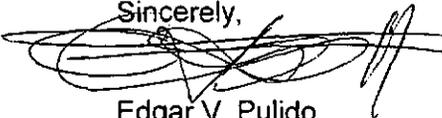

As we discussed during the inspection, you may be able to reduce the waste your company generates. If you find ways to recycle, reduce or altogether eliminate the amount of waste that your company generates you may be able to reduce your treatment and disposal costs. Thus, you may possibly reduce your regulatory requirements. BI is currently recycling scrap, paper and plastic. Ohio EPA has helpful information about pollution prevention at the following web address: www.epa.state.oh.us/ocapp/ocapp.html.

Ohio EPA will issue an EPA ID number to track our inspection activity at CTR. CTR cannot use this number for manifesting hazardous waste shipments. If CTR wants to use an EPA ID number for manifesting and other hazardous waste, used oil or universal waste activities, CTR must complete and submit a Notification of Regulated Waste Activity form (EPA Form 9029 (Rev. 11/2002)) to Ohio EPA. This form is available on our Web page at <http://www.epa.state.oh.us/dhwm/notiform.html> or All-Phase can call the Division of Hazardous Waste Management, Central Office, RIS at (614) 644-2977 and a copy will be sent through the mail.

Enclosed you will find a copy of the checklists that were completed during the inspection. You can find copies of the rules and other information on the division's web page at www.epa.state.oh.us/dhwm.

Should you have any questions or if I can be of assistance, please contact me at (419) 373-3015.

Sincerely,

Edgar V. Pulido
Division of Hazardous Waste Management
