Erie County
Return to Compliance

March 8, 2011

Mr. Timothy J. Ujvari, Maintenance Engineer
Ohio Turnpike Commission
682 Prospect Street
Berea, Ohio 44017-2799

Dear Mr. Ujvari:

Thank you for your February 28, 2011, response (received in this office on March 3, 2011) to Ohio EPA's January 6, 2011, Notice of Violation letter (NOV). You submitted this response on behalf of Mr. Charles Thompson of the Ohio Turnpike's Commission, Castalia Maintenance Building.

Your response stated you will be taking a representative sample when wastes are generated from the pumping out of water/condensation in the gasoline underground storage tanks at your maintenance facilities and sending it to an analytical laboratory for analysis of at least flashpoint (D001) and Toxicity Characteristic Leaching Procedure (TCLP) for benzene (D018) and then labeling this waste and disposing of it accordingly. You submitted photograph documentation indicating the Castalia Maintenance Building's fluorescent bulb containers were properly closed and labeled. In addition, you submitted two hazardous waste manifests from the pick-up of your solvent waste from the parts washer.

Based on this information you have adequately demonstrated abatement of the violations discovered during the December 16, 2010, inspection as listed below:

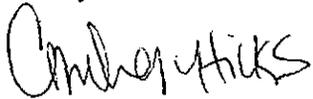

Violation	Date Violation Observed	Date Violation Abated
1. OAC Rule 3745-52-11 Waste Evaluation.	December 16, 2010	March 3, 2011
2. OAC Rule 3745-273- 13(D)(1) Waste management - standards for small quantity handlers of universal waste	December 16, 2010	March 3, 2011

Mr. Timothy J. Ujvari, Maintenance Engineer
