Re: Findlay Car Craft Collision, LTD  
Hancock County  
Complaint Investigation #2971  
OHD 018 024 539  
NOV/PRTC

May 24, 2010

Mr. Jim Foreman, Owner  
Findlay Car Craft Collision, LTD  
225 East Front Street  
Findlay, Ohio 45840

Dear Mr. Foreman:

Thank you for accompanying me during the Ohio Environmental Protection Agency's (Ohio EPA) May 5, 2010, complaint investigation and subsequent hazardous waste compliance evaluation inspection of Findlay Car Craft Collision, LTD (FCCC) located at the address stated above. The complainant alleged mismanagement of waste. I visited FCCC to determine the validity of the complaint and to determine its compliance with Ohio's hazardous waste laws as found in Chapter 3734. of the Ohio Revised Code (ORC) and Chapter 3745. of the Ohio Administrative Code (OAC). This inspection consisted of a facility walkthrough and paperwork review. Pollution prevention options were also discussed during this inspection. This letter will explain the violations I found and what you need to do to address those violations.

FCCC is a small-sized auto body work shop dedicated to complete collision and frame repair and restoration. FCCC operates a full sized media blasting booth and a paint booth. FCCC generates hazardous paint related waste (D001, F003, and F005) from their painting operation. At the time of the inspection, you stated that you are managing your spent bulbs as a solid waste. I told you that you must identify a proper way to manage your spent bulbs. In addition, the used oil you generate during servicing of automobiles is burned in an on-site furnace for energy recovery.

During the inspection, you stated that a filter in your media blasting booth developed a hole that allowed some of the media to escape along the side and in front of your facility. I did not see any evidence of this at the time of the inspection. The filter has since been replaced. In addition, you stated that the plastic media you use to blast is not disposed of and you have not generated any waste from this process. The media is reused. I told you that if you ever generate any waste from this process, it has to be properly evaluated to find out whether it is hazardous or not prior to disposal. At the time of the inspection, FCCC was operating as a conditionally exempt small quantity generator of hazardous waste.

Mr. Jim Foreman  
May 24, 2010  
Page 2

Furthermore, I found the following violation of Ohio's hazardous waste laws. You must provide me the requested information within 30 days of receipt of this letter.

**1. OAC Rule 3745-52-11: Waste Evaluation**

Any person, who generates a waste, as defined in Rule 3745-51-02 of the administrative code, must determine if that waste is a hazardous waste.

FCCC has failed to properly evaluate the spent fluorescent bulbs generated at the facility.

During the inspection, you stated that in the past FCCC may have disposed of the spent fluorescent light bulbs in the trash. FCCC must not dispose of any spent light bulbs as non-hazardous waste in the local landfill until a proper waste evaluation has been completed.

The waste evaluation must be conducted through one of **three options**:

1) FCCC may apply generator knowledge of the hazardous characteristic(s) of the waste in light of the materials or the processes used through adequate documentation [manufacturer analytical information – Toxicity Characteristic Leaching Procedure (TCLP) test results], or

2) FCCC may take a representative sample of this waste to properly evaluate this waste stream through a laboratory analysis which lists constituents present and at what concentration. FCCC must ensure that the laboratory chosen to perform this sampling utilizes the proper method(s) to evaluate these bulbs.

FCCC must sample the fluorescent bulbs to determine the concentration of mercury (D009), cadmium (D006) and lead (D008) as listed in the OAC Rule 3745-51-24 following the method as outlined in U.S. EPA's SW-846. FCCC may run a total concentration for these constituents as a screening tool.

If the concentration is detected for mercury, lead or cadmium at or above the regulatory limit, a TCLP may be required to ensure this constituent is not present above the Ohio EPA regulatory level; or

3) a combination of options 1 and 2.

Mr. Jim Foreman  
May 24, 2010  
Page 3

If the bulbs are determined to be hazardous through a proper waste evaluation, FCCC will have to manage their bulbs either as 1) a universal waste (OAC Chapter 3745-273) or 2) as a hazardous waste under Ohio's generator standards (OAC Chapter 3745-52). ***Instead of taking samples for analysis as described above, FCCC may recycle their bulbs if they are hazardous or non-hazardous by managing them as universal waste. Ohio EPA would encourage this option as a pollution prevention alternative. Please refer to the information I gave you on how to manage light bulbs as universal waste.***

Ohio EPA will use the analytical data you provide, in addition to other documentation, to make regulatory and compliance decisions concerning the wastes tested. This review by Ohio EPA does not alleviate FCCC's responsibility to independently determine whether the wastes tested are hazardous wastes pursuant to OAC Rule 3745-52-11. The data you submit should be reviewed using a data review process, referred to as data validation, to confirm the validity of your data prior to submission. Data validation includes a review of the following components: laboratory test methods, laboratory data completeness, documentation of holding time(s), chain(s) of custody, and quality assurance/quality control (QA/QC) data.

To confirm the validity of your data, you may use Ohio EPA's tier 1 data validation plan review form which can be obtained from Ohio EPA's web page: [http://www.epa.state.oh.us/dhwm/tier\\_i\\_data\\_validation\\_manual.html](http://www.epa.state.oh.us/dhwm/tier_i_data_validation_manual.html).

Ohio EPA may request the documentation needed to confirm the validity of the data submitted. Please submit a brief narrative of each sampling event which includes: sampling techniques used to obtain the sample and a description of how this sample was determined to be a representative sample of the waste tested.

Please note, if the waste is hazardous, you must evaluate it to determine if it is restricted from land disposal in accordance with OAC Chapter 3745-270. In addition, you must properly dispose of or recycle the waste. A copy of the waste disposal documentation and EPA waste codes applicable to the waste must be submitted to me at the Ohio EPA, Northwest District Office (NWDO) prior to disposal.

***To abate this violation***, FCCC must inform me in writing as to how the facility plans to manage the spent fluorescent light bulbs and other spent light bulbs.

Mr. Jim Foreman  
May 24, 2010  
Page 4

**2. OAC 3745-279-22 (C)(1) Used oil storage container labeling.**

Containers and above ground tanks used to store used oil at generator facilities shall be labeled or marked clearly with the words "Used Oil."

FCCC did not label several containers of oil tank located indoors by the used oil furnace.

FCCC abated this violation by labeling the containers with the words "Used Oil" during the inspection.

**Issues of Concern:**

Housekeeping

During my inspection, I noted a variety of containers, trash, dust and general debris inside and outside your facility. Some of the containers may no longer be of use to you. This is an indication of poor housekeeping, which makes it difficult to determine what waste is and what may be usable product.

Effective housekeeping can eliminate some workplace hazards and help get a job done safely and properly. Poor housekeeping can frequently contribute to accidents by hiding hazards that may cause injuries. If the sight of paper, debris, clutter and spills is accepted as normal, then other, more serious health and safety hazards may be taken for granted.

Housekeeping is not just cleanliness. It includes keeping work areas neat and orderly; maintaining work areas free of slip and trip hazards; and removal of waste materials (e.g., scrap metals, scrap wood, etc.) and other fire hazards from work areas. It also requires paying attention to important details such as the layout of the whole workplace, aisle marking, the adequacy of storage facilities, and maintenance. Good housekeeping is also a basic part of accident and fire prevention. Be aware that improving your housekeeping practices may greatly improve your job performance. Please include in the letter of response what you are planning to do to improve housekeeping at your work site.

The Division of Hazardous Waste Management has created an electronic news service to provide you with quick and timely updates on events and news related to hazardous waste activities in Ohio. If you haven't already, we encourage you to sign up for this free service. You can find more information at [http://ohioepa.custhelp.com/cgi-bin/ohioepa.cfg/php/enduser/doc\\_serve.php?2=subscriptionpage](http://ohioepa.custhelp.com/cgi-bin/ohioepa.cfg/php/enduser/doc_serve.php?2=subscriptionpage). Please feel free to share this information with your colleagues.

Mr. Jim Foreman  
May 24, 2010  
Page 5

As we discussed during the inspection, if you find ways to recycle reduce or altogether eliminate the amount of waste that your company generates you may be able to reduce your treatment and disposal costs. Thus, you may possibly reduce your regulatory requirements. Ohio EPA has helpful information about pollution prevention at the following web address: <http://www.epa.ohio.gov/ocapp>.

Enclosed you will find a copy of the checklists that were completed during the inspection. You can find copies of the rules and other information on the division's web page at <http://www.epa.ohio.gov/dhwm/>.

For your information, I provided you the following documents during the inspection : Universal Waste Guidance, December, 2005; Universal Waste Rules for Handlers of Lamps, June, 2005; and Computer, Fluorescent Lamps, and Ballasts Recyclers List, November, 2008. In addition, I am enclosing the following documents: Managing Your Hazardous Waste A Guide for Small Businesses, December, 2001; and The Regulation of Used Oil: An Overview for Ohio Business Who Generate Used Oil, April, 2006;

Should you have any questions or if I can be of assistance, please contact me at (419)373-3015.

Sincerely,

Edgar V. Pulido  
Division of Hazardous Waste Management

**Comments:**

The used oil generated at the facility is burned in a used oil furnace. Spent light bulbs are being currently managed as solid waste.

**USED OIL INSPECTION CHECKLIST  
GENERATORS, COLLECTION CENTERS AND AGGREGATION POINTS**

*NOTE: A facility is subject to the federal SPCC regulations (40 CFR 112) if it is non-transportation related (e.g., fixed) and has an aggregate above ground storage capacity greater than 1,320 gallons or a total underground storage capacity greater than 42,000 gallons of oil (including used oil), and there is reasonable expectation of a discharge to navigable waters.*

**PROHIBITIONS**

1.	Does the generator manage used oil in a surface impoundment or waste pile? If yes:	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
a.	Is the surface impoundment or waste pile regulated as a hazardous waste management unit? [3745-279-12(A)]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

*NOTE: For example, used oil contaminated scrap metal stored in a pile.*

2.	Is used oil used as a dust suppressant? [3745-279-12(B)]	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
3.	Is off-specification used oil fuel burned for energy recovery in devices specified in 3745-279-12(C)?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

*NOTE: Multiple used oil checklists may be applicable if used oil handler is performing multiple tasks (e.g., if generating used oil and shipping directly to a burner, complete generator and marketer checklists at a minimum).*

**GENERATOR STANDARDS**

4.	Does the generator mix hazardous waste with used oil? If so,	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
a.	Is the mixture managed as specified in 3745-279-10(B)? [3745-279-21(A)]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

*NOTE: Used Oil mixed with listed (3745-51-30 to 3745-51-35) or characteristic (3745-51-20 to 3745-51-24) hazardous waste are subject to regulation as a hazardous waste, unless the listed hazardous waste is listed solely because it exhibits a hazardous characteristic, and the resultant mixtures do not exhibit a characteristic. Mixtures of used oil and CESQG hazardous waste are subject to OAC Chapter 3745-279.*

5.	Does the generator of used oil containing greater than 1,000 ppm total halogens manage the used oil as a hazardous waste unless the presumption is rebutted successfully? [3745-279-21(B)]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
----	--	--

*NOTE: If used oil contains greater than 1000 ppm total halogens, it is presumed to be listed hazardous waste until the presumption is successfully rebutted.*

6.	Does the generator store used oil in tanks; or containers; or a unit(s) subject to regulation as a hazardous waste management unit? [3745-279-22(A)]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
7.	Are containers and aboveground tanks used to store used oil in good condition with no visible leaks? [3745-279-22(B)]	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
8.	Are containers, above ground tanks, and fill pipes used for underground tanks clearly labeled or marked Used Oil? [3745-279-22(C)]	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
9.	Has the generator, upon detection of a release of used oil, done the following: [3745-279-22(D)]	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
a.	Stopped the release?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
b.	Contained the release?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
c.	Cleaned up and properly managed the used oil and other materials?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
d.	Repaired or replaced the containers or tanks prior to returning them to service, if necessary?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>

**ON-SITE BURNING IN SPACE HEATER**

10.	Does the generator burn used oil in used-oil fired space heaters? [3745-279-23] If so:	
a.	Does the heater burn only used oil that owner/operator generates or used oil received from household do-it-yourself (DIY) used oil generators?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>

	b.	Is the heater designed to have a maximum capacity of not more than 0.5 million BTU per hour?	Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>	N/A <input type="checkbox"/>
	c.	Are the combustion gases from heater vented to the ambient air?	Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>	N/A <input type="checkbox"/>

*NOTE: Ash accumulated in a space heater must be managed in accordance with 3745-279-10(E).*

**GENERATOR TRANSPORTATION**

11.		Does the generator have the used oil hauled only by transporters that have obtained a U.S. EPA ID#?	Yes <input type="checkbox"/>	No <input type="checkbox"/>	N/A <input checked="" type="checkbox"/>
12.		If the generator self-transported used oil to an approved collection site or to an aggregation point owned by the generator: [3745-279-24]			
	a.	Does the generator transport used oil in a vehicle owned by the generator or an employee of the generator?[3745-279-24]	Yes <input type="checkbox"/>	No <input type="checkbox"/>	N/A <input checked="" type="checkbox"/>
	b.	Does the generator transport more than 55 gallons of used oil at any time?[3745-279-24]	Yes <input type="checkbox"/>	No <input type="checkbox"/>	N/A <input checked="" type="checkbox"/>

*NOTE: Used oil generators may arrange for used oil to be transported by a transporter without a U.S. EPA ID # if the used oil is reclaimed under a contractual agreement (i.e., tolling arrangement).*

**COLLECTION CENTERS AND AGGREGATION POINTS**

13.		Is the DIY used oil collection center in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-30]	Yes <input type="checkbox"/>	No <input type="checkbox"/>	N/A <input checked="" type="checkbox"/>
14.		Is the non-DIY used oil collection center registered with Ohio EPA? [3745-279-31]	Yes <input type="checkbox"/>	No <input type="checkbox"/>	N/A <input checked="" type="checkbox"/>
15.		Is the used oil aggregation point in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-32]	Yes <input type="checkbox"/>	No <input type="checkbox"/>	N/A <input checked="" type="checkbox"/>

*NOTE: Complete Used Oil Generator and any other applicable used oil handler checklist (e.g., marketer, burner, etc.) for used oil collection centers and aggregation points.*

<b>Waste Codes for Federally Regulated Hazardous Wastes.</b> Please list the codes for the federally regulated hazardous waste handled at the site. List them in the order they are presented in the regulations (e.g., D001, D003, F007, U112). Use an additional page or list them in the comments if more space is needed. If the waste codes are the same as listed in the most recent RCRA Info source record, you do not need to list them. Instead just indicate the date of the most recent source record.	
<b>D001 F003 F005</b>	
<b>COMMENTS: USE THIS AREA TO DESCRIBE WHETHER THE INSPECTION WAS ANNOUNCED, WHETHER THE WASTE IS STORED IN TANKS OR CONTAINERS, ETC.</b>	
Announced <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Additional Facility Representatives:
Tanks <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
Containers <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
Name of Inspector(s) _____	Date of Inspection/Time (mm/dd/yyyy) (hh:mm) _____

<b>Comments:</b> <b>The used oil generated at the facility is burned in a used oil furnace.</b>	

**CONDITIONALLY EXEMPT SMALL QUANTITY GENERATOR REQUIREMENTS  
COMPLETE AND ATTACH A PROCESS, WASTE, P2 SUMMARY SHEET**

CESQG: ≤ 100Kg. (Approximately 25-30 gallons) of waste in a calendar month or < 1 Kg. of acutely hazardous waste.  
 SQG: Between 100 and 1,000 Kg. (About 25 to under 300 gallons) of waste in a calendar month.  
 LQG: ≥ 1,000 Kg. (~300 gallons) of waste in a calendar month or ≥ 1 Kg. of acutely hazardous waste in a calendar month.

NOTE: To convert from gallons to pounds: Amount in gallons x Specific Gravity x 8.345 = Amounts in pounds.

Safety Equipment Used:

**WASTE EVALUATION**

1.	Have all wastes generated at the facility been adequately evaluated? [3745-52-11]	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
----	--	--

**GENERATOR CLASSIFICATION**

2.	Does the generator produce <100 kg. of hazardous waste per month? [conditionally exempt small quantity generator ("CESQG")]	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
----	--	--

NOTE: If quantities of hazardous waste accumulated on-site at any one time exceed 1,000 Kg. - or the generator produces between 100 and 1,000 Kg. of hazardous waste per month, it is operating as a Small Quantity Generator ("SQG"). If so, complete the Small Quantity Generator Requirements checklist.

**OFF-SITE SHIPMENT OF HAZARDOUS WASTE**

3.	Does the CESQG ensure delivery of hazardous waste(s) to an off-site permitted TSD? [3734.02(F)]	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
----	---	--

**TREATMENT OF HAZARDOUS WASTE**

4.	Does the generator treat hazardous waste in a:	
a.	Container that meets 3745-66-70 to 3745-66-77?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
b.	Tank that meets 3745-66-90 to 3745-66-101 except 3745-66-97(C)?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
c.	Drip pads that meet 3745-69-40 to 3745-69-45?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
d.	Containment building that meets 3745-256-100 to 3745-256-102?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

NOTE: Complete appropriate checklist for each unit.

NOTE: If the CESQG conducts treatment they are subject to the LQG requirements.

NOTE: If waste is treated to meet LDRs, use LDR checklist.
