Dear Mr. Taylor:

Thank you for your August 31, 2010, and February 8, 2011, responses to Ohio EPA's April 22, 2010, Notice of Violation letter. The documentation you submitted included a copy of analysis of the oily sludge discharged from the aqueous parts cleaning unit in your service department and documentation which indicates that you are recycling your spent fluorescent lamps as universal waste. In addition, Ohio EPA obtained a sample of the oily sludge discharged from your aqueous parts cleaning unit on January 12, 2011. A copy of the analysis dated January 25, 2011, is attached to this letter for your records.

My review of this documentation reveals that Warner Automotive has now abated all violations discovered during the April 13, 2010, inspection as listed below.

Letter Citation	Rule Citation	RTC Date
1(a).	OAC Rule 3745-52-11 Waste Evaluation (water based parts washer sludge)	January 25, 2011
