Used Oil Generator
Hancock County, NWDO
RTC

July 15, 2010

Mr. Nelson Treadway, Owner
Treadway Chrysler Dodge Jeep
10305 US Route 224 West
Findlay, Ohio 45840

Dear Mr. Treadway:

Thank you for your May 19, 2010, response to Ohio EPA's May 17, 2010, Notice of Violation letter. Your response included a management plan for your spent fluorescent lamps. In addition, with your consent, Ohio EPA obtained a sample of the oily sludge generated from your aqueous parts washer on May 27, 2010. Ohio EPA received the analytical results on June 29, 2010.

My review of this documentation reveals that Treadway Chrysler Dodge Jeep has now abated all violations discovered during the May 3, 2010 inspection as listed below.

Letter Citation #	Rule Citation #
1(a).	OAC Rule 3745-52-11, Waste Evaluation, Fluorescent Lamps, rtc 5-19-2010
1(b).	OAC Rule 3745-52-11, Waste Evaluation, Spent Aqueous Parts Washer Oily Waste, rtc 6-29-2010

The analysis of the oily sludge indicates that the waste contains trace amounts of solvents which may be the result of cross contamination with solvents used by the facility.

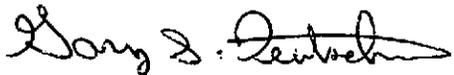

Mr. Nelson Treadway

Page Two

However, based on the material safety data sheet provided with the detergent used in the aqueous parts washer, Ohio EPA has determined that the waste sampled on May 27, 2010, is not a hazardous waste. Treadway Chrysler Dodge Jeep may continue to mix the oily sludge with the used oil generated at the facility. I have enclosed a copy of the analysis for your use. Treadway Chrysler Dodge Jeep should maintain a copy of this analysis for future reference.

If you should have any questions, please feel free to contact me at (419)373-3056.

Sincerely,

Gary S. Deutschman
Environmental Specialist III
Division of Hazardous Waste Management
