Re: Cole Motor Sales, Inc.
OHD017465410
Hazardous Waste
Hardin County
NOV/RTC

August 19, 2011

Ms. Cathy Cole
Cole Motor Sales, Inc.
120 East Buckeye Street
Ada, Ohio 45810

Dear Ms. Cole:

Thank you for accompanying me during Ohio EPA's July 29, 2011, hazardous waste compliance evaluation inspection (CEI) of Cole Motor Sales, Inc. (Cole) located at 120 East Buckeye Street, Ada, Ohio. I inspected Cole to determine its compliance with Ohio's hazardous waste laws as found in Chapter 3734. of the Ohio Revised Code (ORC), and Ohio's hazardous waste regulations as adopted under Chapter 3745. of the Ohio Administrative Code (OAC). The inspection included a tour of facility operations and a review of facility paperwork. This letter will explain the violations I found, two areas of concern and what you need to do to satisfy the one outstanding area of concern.

Cole notified Ohio EPA on May 1, 1989, that they were a small quantity generator of hazardous waste (D001, F003, F005). You stated that Cole no longer does painting and that this notification may have been due to the painting activities that occurred at the facility. The paint operation was taken out around 1997-1998.

Cole is an automobile service shop. Cole only provides repairs and does not conduct auto body work. Cole is currently a used oil generator. Wastes generated at your facility include used oil filters, used oil, antifreeze, lead-acid batteries and lamps. You are currently gathering information to determine if the facility generates parts washing solvent.

During the inspection, I gave you the following information: the Ohio EPA publication Environmental Compliance Guide for Auto Repair Shops – October 2001; the Ohio EPA fact sheets Identifying your Hazardous Waste; Universal Waste Rules for Handlers of Lamps; Fluorescent Lamps: What you Should Know; The Regulation of Used Oil: An Overview for Ohio Businesses Who Generate Used Oil; a sample universal waste management plan for lamps and a list of lamp recyclers in Ohio.

I found the following violations of Ohio's hazardous waste laws:

**1. Waste Evaluation.
OAC Rule 3745-52-11**

Any person who generates a waste must determine if that waste is a hazardous waste in accordance with the criteria for hazardous waste as set forth in Chapter 3745-51 of the Administrative Code.

Cole failed to have waste evaluation documentation or an established recycling plan in place for the fluorescent bulbs generated at the facility.

Cole was disposing of their fluorescent bulbs in the trash.

- *On August 9, 2011, you submitted via email a universal waste management plan for your lamps. In addition, you submitted a photograph documenting that your lamps have been properly containerized, labeled and dated. Thus this violation has been abated.*

**2. Used oil storage requirements - proper labels.
OAC Rule 3745-279-22 (C) (1)**

Containers used to store used oil shall be labeled or marked clearly with the words "Used Oil."

Cole failed to mark their used oil tank containing used oil and the small tank (approximately 15-gallons) which collects used oil from the draining of their used oil filters with the words "Used Oil".

- *On August 9, 2011, you submitted via email pictures which show that your used oil tank and your small tank, which collects your used oil drained from your filters, have been marked with the words "Used Oil". Thus this violation has been abated.*

Areas of Concern:

A. Used oil spilled into the secondary containment.

Ms. Cathy Cole
August 19, 2011
Page 3

During the site tour I observed used oil which had spilled from your used oil tank into the secondary containment area surrounding your used oil tank. No used oil has escaped the containment, thus there was not a release to the environment. I stated you should call DISC Environmental Service (DISC) and ask them if they would pump this material and recycle this used oil. On August 1, 2011, you stated via telephone that you had spoken to DISC and they were planning on coming out and pumping up this material.

- ***On August 11, 2011, you submitted, via email, pictures which show that the used oil has been pumped out of the secondary containment area and on August 15, 2011, via regular mail I received the disposal receipt from DISC for the pick-up of 10-gallons of this oil. Thus this area of concern has been satisfied.***

B. Parts washer.

Cole currently has a parts washer in the service shop. Upon discussion with you this parts washer may not be used frequently if at all. You also stated that if this parts washer is not needed you would prefer to get rid of it. We discussed that any used parts washing solvent is considered a waste and would have to be evaluated to determine if it's hazardous or not. At this time, we're unsure what the maintenance people utilize the parts washer for (what types of things they are cleaning or if they utilize it at all). Per our phone conversation on August 18, 2011, you are going to gather some information from your maintenance people to find out how this parts washer is used to help in the determination of your waste evaluation or if it's not used at all you may consider getting rid of it. You stated you will get back with me in the next couple of days with this information and we will discuss to figure out the best option for Cole.

- ***To satisfy this area of concern, please provide me a summary of how this parts washer is utilized, if it's utilized at all or if you simply plan to get rid of it. If based on this information you need to conduct a waste evaluation, please state how you are going to conduct this evaluation. Please submit this information within 21 days of receipt of this letter.***

Pollution Prevention:

KOI Auto Parts is picking up your lead-acid batteries and sending to Johnson Controls for recycling. On August 15, 2011, via regular mail you provided documentation from Johnson Controls about their lead-acid battery recycling process.

Cole is recycling their used antifreeze and used oil with DISC.

Ms. Cathy Cole
August 19, 2011
Page 4

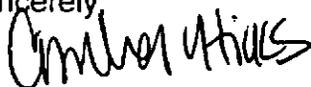

On August 1, 2011, I sent you via email a list of used oil filter recyclers as you should consider recycling your properly drained used oil filters as scrap metal. If you find additional ways to recycle, reduce, or altogether eliminate the amount of waste that your company generates you may be able to reduce treatment and disposal costs. Furthermore, you may possibly reduce your regulatory requirements. Or if you would like a free, non-regulatory on-site pollution prevention assessment or more information about pollution prevention, please contact me at (419) 373-3082. Ohio EPA has helpful information about this at the following web address: <http://www.epa.ohio.gov/ocapp/>

The Division of Materials and Waste Management (DMWM) has created an electronic news service to provide you with quick and timely updates on events and news related to hazardous waste activities in Ohio. If you haven't already, we encourage you to sign-up for this free service. You can find more information at the following Web link http://ohioepa.custhelp.com/cgi-bin/ohioepa.cfg/php/enduser/doc_serve.php?2=subscriptionpage. Please feel free to share this information with your colleagues.

Enclosed you will find a copy of the checklists that I completed during the inspection. Please address all correspondence to Amber Hicks, Ohio EPA, 347 N. Dunbridge Road, Bowling Green, Ohio 43402. Should you have any questions, please feel free to call me at (419) 373-3082 or email at amber.hicks@epa.ohio.gov.

You can find copies of the rules and other information on the division's web page at <http://www.epa.ohio.gov/dmwm.aspx>.

Sincerely,

Amber M. Hicks
Division of Materials and Waste Management

 Used Oil Fuel Marketer who first claims the Used Oil meets the specifications

Eligible Academic Entities with Laboratories: Facility has previously notified that they are opting into managing laboratory hazardous waste pursuant to OAC rules 3745-52-200 through 3745-52-216. Check the box(es) below to indicate the laboratory type.

- College or University
 Teaching hospital that is owned by or has a formal written affiliation agreement with a college or university
 Non-profit Institute that is owned by or has a formal written affiliation agreement with a college or university

Waste Codes for Federally Regulated Hazardous Wastes. Please list the codes for the federally regulated hazardous waste handled at the site. List them in the order they are presented in the regulations (e.g., D001, D003, F007, U112). Use an additional page or list them in the comments if more space is needed. If the waste codes are the same as listed in the most recent RCRAInfo source record, you do not need to list them. Instead just indicate the date of the most recent source record.

COMMENTS: USE THIS AREA TO DESCRIBE WHETHER THE INSPECTION WAS ANNOUNCED, WHETHER THE WASTE IS STORED IN TANKS OR CONTAINERS, ETC.

Comments:

Tanks is one used oil tank. At this time facility is a non-generator of hazardous waste. Facility has a parts washer but unsure if it's utilized. Facility is gathering some information on this parts washer and may decide to get rid of it if it's not used. No violation cited - awaiting/need more information.

PROCESS, WASTE, P2 SUMMARY SHEET

Facility Name: Cole Motor Sales, Inc. Facility Type: LQG SQG CESQG TSD Date of Inspection: 7-29-11 EPA ID#: OHD017465410

| Waste Generated | | | On- or Off-Site Management | | P2 Activities | | |
|---|--|--|--|---|---|---|--|
| Process/Activity Generating Waste (e.g. plating bath, machining, baghouse, painting, general maintenance, etc) | Waste Description (e.g. sludge, solvent, ash, used oil, spent lamps, etc.) and EPA Waste Code, if applic. | QTY Generated per Month, Type of Accumulation (container, tank, etc) and location of waste accumulation area | Type of On-Site Treatment (recycle, wwt, etc) | Name, state, and type of activity occurring at the off-site facility. | Current P2 Activities | P2 Opportunities | |
| 1 | Lighting | Fluorescent bulbs | Unknown | NA | Previously disposing in solid waste stream - 52-11 violation. | Facility is now recycling - abated this violation. | Gave list of recyclers & explained proper management - UW & recycling. |
| 2 | Servicing of vehicles | Used Oil | ~153 gallons | | DISC Environmental Services - Northwood, OH | Burning for energy recovery. | |
| 3 | Servicing of vehicles | Used oil filters | Unknown | NA | Drained filters are then thrown in solid waste stream. | | Gave a list a used oil filter recyclers and suggested to recycle. |
| 4 | Servicing of vehicles | Antifreeze | 55 gallons for year to date. | | DISC Environmental Services - OH | Recycling antifreeze and re-using it. | |
| 5 | Servicing of vehicles | Lead-acid batteries | Unknown | | KOI Auto Parts - Lima, OH | Recycling. | |
| 6 | Maintenance activities/parts washing (facility is looking into whether this parts washer is used or not) | Parts washing solvent | ~2.5 gallons | | DISC Environmental Services - OH | Mixed with & managed as used oil - burning for energy recovery. | |

REMARKS-GENERAL INFORMATION

General Process Information:

Regulatory/Enforcement History (if applicable):

Additional P2 remarks and information:

Not sure if facility would be interested or not.

Would this facility be interested in a P2 assessment? Yes* No *If yes, refer promptly to your district P2 coordinator.

Office of Compliance Assistance and Pollution Prevention - 1-800-329-7518 or p2mail@epa.state.oh.us or www.epa.state.oh.us/ocapp/ocapp.html

Other:

**USED OIL INSPECTION CHECKLIST
GENERATORS, COLLECTION CENTERS AND AGGREGATION POINTS**

NOTE: 1. A facility is subject to the federal SPCC regulations (40 CFR 112) if it is non-transportation related (e.g., fixed) and has an aggregate above ground storage capacity greater than 1,320 gallons or a total underground storage capacity greater than 42,000 gallons of oil (including used oil), and there is reasonable expectation of a discharge to navigable waters.

2. Inspectors can check BUSTR's web-site at https://www.comapps.ohio.gov/sfm/fire_apps/bust/bustr/PublicInquiry.asp to determine if a UST containing used oil is registered with BUSTR. Inspectors may call BUSTR at 614-752-7938 or a BUSTR site coordinator to report an unregistered UST or a UST that appears to not be in compliance with BUSTR regulations. A list of BUSTR coordinators by county are at: https://www.comapps.ohio.gov/sfm/fire_apps/bust/bustr/SearchByCounty.asp.

PROHIBITIONS

| | | |
|----|---|--|
| 1. | Does the generator manage used oil in a surface impoundment or waste pile? If yes: | Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/> |
| a. | Is the surface impoundment or waste pile regulated as a hazardous waste management unit? [3745-279-12(A)] | Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/> |

NOTE: For example, used oil contaminated scrap metal stored in a pile.

| | | |
|----|---|--|
| 2. | Is used oil used as a dust suppressant? [3745-279-12(B)] | Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/> |
| 3. | Is off-specification used oil fuel burned for energy recovery in devices specified in 3745-279-12(C)? | Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/> |

NOTE: Multiple used oil checklists may be applicable if used oil handler is performing multiple tasks (e.g., if generating used oil and shipping directly to a burner, complete generator and marketer checklists at a minimum).

GENERATOR STANDARDS

| | | |
|----|---|---|
| 4. | Does the generator mix hazardous waste with used oil? If so, | Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/> |
| a. | Is the mixture managed as specified in 3745-279-10(B)? [3745-279-21(A)] | Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/> |

NOTE: Used Oil mixed with listed (3745-51-30 to 3745-51-35) or characteristic (3745-51-20 to 3745-51-24) hazardous waste are subject to regulation as a hazardous waste, unless the listed hazardous waste is listed solely because it exhibits a hazardous characteristic, and the resultant mixtures do not exhibit a characteristic. Mixtures of used oil and CESQG hazardous waste are subject to OAC Chapter 3745-279.

| | | |
|----|--|--|
| 5. | Does the generator of a used oil containing greater than 1,000 ppm total halogens manage the used oil as a hazardous waste unless the presumption is rebutted successfully? [3745-279-21(B)] | Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/> |
|----|--|--|

NOTE: If used oil contains greater than 1000 ppm total halogens, it is presumed to be listed hazardous waste until the presumption is successfully rebutted.

| | | |
|----|--|--|
| 6. | Does the generator store used oil in tanks; or containers; or a unit(s) subject to regulation as a hazardous waste management unit? [3745-279-22(A)] | Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/> |
| 7. | Are containers and aboveground tanks used to store used oil in good condition with no visible leaks? [3745-279-22(B)] | Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/> |
| 8. | Are containers, above ground tanks, and fill pipes used for underground tanks clearly labeled or marked "Used Oil?" [3745-279-22(C)] | Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/> |
| 9. | Has the generator, upon detection of a release of used oil, done the following: [3745-279-22(D)] | Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/> |
| a. | Stopped the release? | Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/> |
| b. | Contained the release? | Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/> |
| c. | Cleaned up and properly managed the used oil and other materials? | Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/> |
| d. | Repaired or replaced the containers or tanks prior to returning them to service, if necessary? | Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/> |

| | | |
|--|--|--|
| ON-SITE BURNING IN SPACE HEATER | | |
| 10. | Does the generator burn used oil in used-oil fired space heaters? [3745-279-23] If so: | |
| a. | Does the heater burn only used oil that owner/operator generates or used oil received from household do-it-yourself (DIY) used oil generators? | Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/> |
| b. | Is the heater designed to have a maximum capacity of not more than 0.5 million BTU per hour? | Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/> |
| c. | Are the combustion gases from heater vented to the ambient air? | Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/> |
| <i>NOTE: Ash accumulated in a space heater must be managed in accordance with 3745-279-10(E).</i> | | |
| GENERATOR TRANSPORTATION | | |
| 11. | Does the generator have the used oil hauled only by transporters that have obtained a U.S. EPA ID#? [3745-279-24] | Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/> |
| 12. | If the generator self-transported used oil to an approved collection site or to an aggregation point owned by the generator: [3745-279-24] | |
| a. | Does the generator transport used oil in a vehicle owned by the generator or an employee of the generator? [3745-279-24] | Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/> |
| b. | Does the generator transport more than 55 gallons of used oil at any time? [3745-279-24] | Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/> |
| <i>NOTE: Used oil generators may arrange for used oil to be transported by a transporter without a U.S. EPA ID # if the used oil is reclaimed under a contractual agreement (i.e., tolling arrangement).</i> | | |
| COLLECTION CENTERS AND AGGREGATION POINTS | | |
| 13. | Is the DIY used oil collection center in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-30] | Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/> |
| 14. | Is the non-DIY used oil collection center registered with Ohio EPA? [3745-279-31] | Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/> |
| 15. | Is the used oil aggregation point in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-32] | Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/> |
| <i>NOTE: Complete Used Oil Generator and any other applicable used oil handler checklist (e.g., marketer, burner, etc.) for used oil collection centers and aggregation points.</i> | | |
