Mr. Donald Reynolds, Owner  
Hogrefe Auto Parts, Inc.  
690 East Riverview Avenue  
Napoleon, Ohio 43545

Dear Mr. Reynolds:

On June 30 and July 1, 2009, I conducted a complaint investigation (#2887)/ compliance evaluation inspection at your facility located at the address stated above. Also, the associated building (Engine Repair Shop) located at 540 East Riverview Avenue was also inspected. On July 23, 2009, I issued a notice of violation letter (NOV), and did not get any response. On October 27, 2009, I conducted a follow-up visit and noticed that you had not abated all of the violations cited in the July 23, 2009, NOV. On October 28, 2009, I issued a notice of violation/partial return to compliance letter (NOV/PRTC). On July 14, 2011, you resubmitted a copy of the sampling results of the used oil contaminated soil. The soil sample was taken January 29, 2010, and reported to you on February 8, 2010, by A & L Great Lakes Laboratories, Inc., 3505 Conestoga Drive, Fort Wayne, Indiana. The sample was analyzed for total RCRA metals. Lab results indicated trace levels of contaminants well below regulatory limits. Based on the sample results, the used oil contaminated gravel is non-hazardous and it can be disposed of as a solid waste.

Based on the sample results and my previous site observations, all the violations discovered during the June 30 and July 1, 2009, complaint investigation/compliance evaluation inspection have now been abated as listed below:
