Mr. Devin Barrett
Bottomline Ink
149 Euclid Avenue
Toledo, Ohio 43605

Dear Mr. Barrett:

Thank you for your February 20, 2007, response to my January 4, 2007, Notice of Violation letter. You submitted information documenting that you will be handling your universal waste bulbs through Gross Electric which will recycle them at Environmental Recycling. You also submitted photographs showing your drum of plate developer labeled with the words "hazardous waste" and with an accumulation start date. You documented that you have begun doing weekly inspections and submitted a copy of the checklist. You also completed an emergency equipment inspection and developed a spill kit, posted emergency information by the phone, designated an emergency coordinator and trained employees on small quantity generator regulations and what to do in an emergency.

My review of Bottomline Ink's February 20, 2007, submittal reveals that Bottomline Ink has adequately demonstrated abatement of all violations discovered during Ohio EPA's November 20, 2006, compliance evaluation inspection.

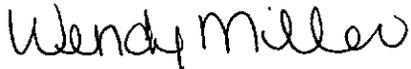

The following violations are abated:

- Waste Evaluation, OAC Rule 3745-52-11
- Container Labeling, OAC 3745-52-34(A)(3)
- Accumulation Date Marking, OAC 3745-52-34(A)(2)
- Weekly Inspections, OAC 3745-66-74
- Emergency Equipment Testing, OAC 3745-65-33
- Emergency Preparedness: Emergency Coordinator, OAC 3745-52-34(D)(5)(a)
- Emergency Preparedness: Posted Information, OAC 3745-52-34(D)(5)(b)
- Emergency Preparedness: Waste Handling/Emergency Procedures, OAC 3745-52-34(D)(5)(c)

Mr. Devin Barrett
