Mr. Terry Jester
Comfort Line, Ltd.
5500 Enterprise Boulevard
Toledo, Ohio 43612

Dear Mr. Jester:

Thank you for your March 11, 2009, response to my February 25, 2009, Notice of Violation letter. Your response included photographs of universal waste lamps in closed containers and properly labeled and photographs of emergency information posted next to the telephone. Because I was not aware that you had hazardous waste resin generated and treated on site that counted toward your generator status, Comfort Line was not inspected as a large quantity generator. Your personnel training program and contingency plan were not thoroughly reviewed during our inspection to determine compliance with large quantity generator regulations. These will be reviewed in the future.

With the information submitted on March 11, 2009, all violations observed during our February 4, 2009, inspection are considered abated.

1. Used Oil Labeling, OAC Rule 3745-279-22(C)(1)

Abated during inspection February 4, 2009

2. Labeling, Satellite Accumulation Area, OAC Rule 3745-52-34(C)(1)(b)

Abated during inspection February 4, 2009

3. Container Management, OAC Rule 3745-66-73(A)

Abated during inspection February 4, 2009

4. Universal Waste Management, OAC Rule 3745-273-13(D)(1):

Abated March 11, 2009

5. Universal Waste Fluorescent Bulb Labeling, OAC Rule 3745-273-14(E):

Abated March 11, 2009

Mr. Terry Jester
May 27, 2009
Page Two

6. Emergency posting OAC Rule 3745-52-34 (D)(5)(b)

This violation is only cited for small quantity generators. Since you were not a small quantity generator at the time of the inspection, this violation has been rescinded.

Should you have any questions, please feel free to call me at (419)373-3114.

Sincerely,

Wendy A. Miller
Division of Hazardous Waste Management
