RE: Logan County  
Harding Machine Company  
Non-Transient Non-Community Water System  
PWS ID NO.: OH4633212

Mr. Todd Kriegel  
Harding Machine Company  
13060 ST RT 287  
East Liberty, Ohio 43319

Dear Mr. Kriegel:

This letter is notification that the Harding Machine Company water system is in violation of the Ohio Administrative Code (OAC) for failure to perform lead and copper routine tap monitoring as specified in OAC rules 3745-81-80 through 3745-81-89.

This lead and copper routine tap monitoring was required during the June 1 to September 30, 2009 sampling period. Ohio EPA records indicate that the First Baptist Church of New Carlisle-Daycare water system did not perform lead and copper monitoring during the required monitoring period.

In order to avoid any further violations, you must do the following:

1. Collect and analyze the required number of lead and copper tap samples during June 1 and September 30, 2010. Based on the reported population of 50, you are required to collect a minimum of 5 (five) first draw lead and copper tap samples. Report results on the enclosed forms 5105, 5106, and 5107 by October 10, 2010.
2. **Within 30 days** issue the attached public notice of the violation in accordance with rule 3745-81-32 of the Ohio Administrative Code by the following methods:

Public notice issued by posting in conspicuous locations throughout the distribution system (required to remain posted for as long as the violation exists, but in no case less than 7 days)

**Schools and Day-Care Facilities** must notify parents or guardians of children being served by methods besides posting, such as a newsletter, e-mail notice, or direct mailing.

Harding Machine Company  
February 25, 2010

**Monitoring requirements were not met for  
Harding Machine Company**

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not your drinking water meets health standards. During June 1 to September 30, 2009, we "did not monitor or test" for lead and copper and therefore cannot be sure of the quality of your drinking water during that time.

**What Should I Do?**

- *There is nothing you need to do at this time. You do not need to boil your water or take other corrective action.*
- *This notice is to inform you that Harding Machine Company did not monitor and report results for the presence of lead and copper in the public drinking water system during the June 1 to September 30, 2009 time period, as required by the Ohio Environmental Protection Agency.*

**What is being done?**

Upon being notified of this violation, the water supply was required to have the drinking water analyzed for the above mentioned parameters. The water supplier will take steps to ensure that adequate monitoring will be performed in the future.

For more information, please contact \_\_\_\_\_ at \_\_\_\_\_  
name of contact phone number

or at \_\_\_\_\_  
mailing address

*Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.*
