Mid States Packaging  
Non-Transient Non-Community Public Water System  
PWS ID NO: OH4638912

Mid States Packaging  
P. O. Box 12  
Covington, Ohio 45318

This letter is notification that the Mid States Packaging water system is in violation of the Ohio Administrative Code (OAC) for failure to perform lead and copper routine tap monitoring as specified in OAC rules 3745-81-80 through 3745-81-89.

This lead and copper routine tap monitoring was required during the June 1-September 30, 2010 sampling period. Ohio EPA records indicate that the Mid States Packaging water system did not perform lead and copper monitoring during the required monitoring period.

In order to avoid any further violations, you must do the following:

1. Collect and analyze 5 lead and copper tap samples during the June 1-September 30, 2011 monitoring period. Based on the reported population of 35, you are required to collect a minimum of 5 first draw lead and copper tap samples. Report the lead and copper results on the enclosed forms 5105, 5106, and 5107 and return a copy of the completed report forms to the Southwest District Office of the Ohio EPA by October 10, 2011.
2. **Within 30 days** issue the attached public notice of the violation in accordance with rule 3745-81-32 of the Ohio Administrative Code by the following methods:

Mail or other direct delivery to each customer receiving a bill and to other service connections;  
and

Page 2

If necessary, the system must also use any other method reasonably calculated to reach all persons served by the water system.

Note: Systems opting to include the required public notice in the next water bill have up to 90 days.

The language in italics on the attached public notice is mandatory and must be followed as written.

If you have any questions, please contact me at (937) 285- 6417.

Sincerely,

# DRINKING WATER NOTICE

## LEAD AND COPPER TAP MONITORING VIOLATION

*We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During the monitoring period we did not complete the required monitoring for lead and copper and therefore cannot be sure of the quality of our drinking water during that time.*

### **What Should I Do?**

There is nothing you need to do at this time. You do not need to boil your water or take other corrective action.

This notice is to inform you that the MID STATES PACKAGING INC water system did not monitor and report results of lead and copper in the public drinking water system during the JUNE 1 – SEPTEMBER 30, 2010 monitoring period, as required by the Ohio Environmental Protection Agency.

### **What is being done?**

Upon being notified of this violation, the water supply was required to have the drinking water analyzed for the above mentioned parameters. The water supplier will take steps to ensure that adequate monitoring will be performed in the \_\_\_\_\_ monitoring period.

For more information, please contact:

\_\_\_\_\_ at \_\_\_\_\_ or \_\_\_\_\_ name of contact

*Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.*
