Re: Richland County
Happy Hollow MHP
NPDES Permit

September 3, 2008

Mr. Larry Goble, Owner
1393 Whittmer Road
Mansfield, Ohio 44903

Dear Mr. Goble:

On August 14, 2008, an inspection was made of the wastewater treatment plant (WWTP) serving the Happy Hollow MHP located on State Route 61 just south of the Village of Plymouth. At the time of the inspection the new lift station to the Village of Plymouth appeared to be completed with all flow going into the lift station.

All of the tanks in the old aeration plant appeared to have been pumped out. The tanks still need to be abandoned properly by cracking the bottoms, filling them with gravel or dirt, and then planting grass.

A review of your monthly operating reports for the months of January through July 2008, revealed 59 **violations** of the limits contained in your NPDES permit. For the month of July you reported "no discharge from the treatment plant". If the new lift station is indeed operational, it will be necessary to finish demolition of the old treatment plant and notify our office in writing once this has been completed. At that time you should also request that our office terminate your NPDES permit, as a discharge to waters of the state no longer exists.

If you have any questions regarding this letter, please call me at 419-373-3070.

Sincerely,

Walter Ariss
Environmental Specialist II
Division of Surface Water
