Chris Elliott
Ohio Soil Recycling
2101 Integrity Drive
P.O. Box 09447
Columbus, Ohio 43209

Dear Mr. Elliott:

This letter is written regarding a storm water inspection I conducted December 11, 2006, at Ohio Soil Recycling. In addition, I am responding to your e-mail dated December 12, 2006.

I have noted recent erosion control measures associated with this site. These erosion control measures were addressed concurrent with my inspection on November 16, 2006. I understand that a spray on tackifier has been utilized to provide stabilization to the piles.

It is my intention to evaluate the erosion control provided in association with this product. I understand it is your intention to test the performance associated with this product. Please keep me informed to ensure that the minimal conditions of your General Storm Water Permit have been addressed.

Please continue to implement measures to provide drainage to your impoundments intended for containment and/or sediment control.

If you have any question regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3844. A Follow up inspection will be conducted to ensure the conditions of the General Permit are met.

Sincerely,

Harry Kallipolitis
Storm Water Coordinator
Division of Surface Water
Central District Office
