Ed Leonard
Central Ohio Community Improvement Corporation
300 East Broad Street, Suite 190
Columbus, OH 43215

Dear Mr. Leonard:

This letter is written regarding a storm water inspection I conducted of the closure activities associated with Bedford Landfill located on Claycraft Road in Gahanna, Ohio, located in Franklin County, on December 5, 2006. During my inspection I met with Marvin Hicks of Performance Excavating. I understand this site is currently covered under our General Storm Water Permit associated with Construction Activities. Based on my site observations and the conditions set forth in the General Permit, the following items will be required:

Sediment and Erosion Controls:

1. I noted the temporary riser installation in the centralized basin in accordance with my last inspection report. Please ensure the riser is installed to ensure effective sediment storage volume. Please evaluate the riser to ensure storm water is not bypassing the structure through an improper seal with the outlet pipe.
2. Given the time of year alternate erosion control measures such as erosion control matting, crimped mulching, mulch with netting and/or tackifier, or an approvable alternative, must be implemented for this site to ensure effective erosion control for the upcoming winter months.

If you have any questions regarding this letter or my inspection, please do not hesitate to call me at our Central District Office at (614) 728-3844. In addition, please provide a written response to the action items addressed above within ten days from receipt of this letter. A follow up inspection will be conducted to ensure the minimum conditions of the General Permit have been met.

Sincerely,

Harry Kallipolitis
Storm Water Coordinator
