Dublin, Ohio 43016-5555

Dear Mr. Kinder:

This letter is written regarding the storm water inspection I conducted at Hazelwood located in Licking County on November 27, 2006. I understand these construction activities are currently covered under the General Storm Water Permit Associated with Construction Activities. Based on my site inspection and the General Storm Water Permit the following items were noted.

Sediment and Erosion Controls:

1. The large centralized basin located at the extreme northwest corner of this project was evaluated. I am concerned that the temporary riser has become dislodged from the outlet structure eliminating the required sediment storage volume. Please investigate and install the appropriate corrective measures.
2. The majority of this area has been seeded with vegetation established successfully to control erosion.

If you have any further questions regarding this letter or my inspection, do not hesitate to contact me at our Central District Office at (614) 728-3844.

Sincerely,

Harry Kallipolitis
