**Re: Construction Storm Water Inspection at Coughlin Automotive / Licking County
Permit Number**

Dear Mr. Coughlin Jr.:

This letter is written in follow-up to a construction storm water inspection I conducted at 9000 East Broad Street on June 30, 2010. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, I noted the following issues associated with construction activities at this site:

Sediment and Erosion Control:

- The majority of the site has become covered with vegetation sufficient to control erosion. The construction activities have temporarily ceased, and may resume in the near future.
- Please ensure the centralized sediment basin directly adjacent to Blacks Road is functioning as intended prior to the recommencement of construction.

Post Construction:

- The post construction issue associated with this site that has not been resolved. I understand that you have been working with several consultants. Please understand this issue must be resolved prior to the closing of the project.

If you have any questions regarding this letter or my inspection, please do not hesitate to contact me at our Central District Office at 614-728-3844 or email at harry.kallipolitis@epa.state.oh.us.

Sincerely,

Harry Kallipolitis
Storm Water Coordinator
Division of Surface Water
