Mr. Robert Gary, Jr.
Bob's Transmission & Auto Repair
47550 West Brooklyn Street
Warnock, Ohio 43967

Dear Mr. Gary, Jr.:

On October 4, 2011, Erika Jackson and I conducted a complaint investigation of Bob's Transmission & Auto Repair to determine the validity of a complaint that was received by this office on September 23, 2011, and to determine the company's compliance with Ohio's solid and hazardous waste laws and regulations, as found in the Ohio Revised Code and the Ohio Administrative Code (ORC and OAC, respectively). The complainant alleged that automotive fluids were being disposed of onto the ground.

Based on the complaint investigation, there was no evidence of disposal of automotive fluids on the ground; however, I found the following violation of Ohio's hazardous waste regulations. In order to correct this violation, you must do the following and send me the required information ***within 30 days*** of your receipt of this letter:

- (1) **Used oil storage requirements for generators, OAC rule 375-279-22(C):** Containers and aboveground tanks used to store used oil at generator facilities shall be labeled or marked clearly with the words "Used Oil".

During the complaint investigation, used oil containers were not labeled as required by this rule. To demonstrate compliance with this rule, photographic documentation must be submitted to Ohio EPA demonstrating that the containers have been labeled as required.

Waste Codes for Federally Regulated Hazardous Wastes. Please list the codes for the federally regulated hazardous waste handled at the site. List them in the order they are presented in the regulations (e.g., D001, D003, F007, U112). Use an additional page or list them in the comments if more space is needed. If the waste codes are the same as listed in the most recent RCRA info source record, you do not need to list them. Instead just indicate the date of the most recent source record.
