Ms. Phyllis Sites
Detroit Diesel Specialty Tool Co.
60703 Country Club Road
Byesville, Ohio 43723

Dear Ms. Sites:

On March 31, 2011, I performed a compliance inspection of Detroit Diesel's Plant 2 to determine its compliance with Ohio's hazardous waste laws and regulations as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC).

Based on our observations and the documentation reviewed from the inspection, a notice of violation was issued to your facility on April 28, 2011. On July 20 and August 3, 2011, I received photographs of the required emergency information posted by telephones and of properly stored universal waste bulbs, demonstrating compliance with the following regulations:

- (i) OAC rule 3745-52-34(D)(5)(b) Accumulation time of hazardous waste;
- (ii) OAC rule 3745-273-13(D)(1) Waste Management – standards for small quantity handlers of universal waste.

You have now abated all violations cited from the March 31, 2011 inspection.

Additional information on the hazardous waste rules is available on Ohio EPA's website at www.epa.ohio.gov. If you have any questions regarding waste management or pollution prevention activities, please call me at (740) 380-5278.

Sincerely,

Richard Stewart
District Representative
Division of Materials and Waste Management
