**Re: Management of Scrap Tires – Woody's Auto Salvage – Fourth Follow-up Inspection**

Dear Mr. Baker:

During the late morning of January 20, 2010, I stopped at your auto salvage operation located at 1988 McKinley Avenue to discuss and observe how many additional tires have been removed from the area outside of the perimeter fence since my last inspection on September 29, 2009.

During the site walk over, it appears that you have retrieved between 100 and 150 tires from the outside of the perimeter fence. Additionally, I would estimate that you have about 500 tires still located outside the perimeter fence. Please continue to work on removing all of the tires. Ideally, all of the tires should be retrieved and disposed of by April 1, 2010.

If you have any questions, please feel free to call me at 728-3890. I can also be reached by email at [phil.farnlacher@epa.state.oh.us](mailto:phil.farnlacher@epa.state.oh.us).

Sincerely,

Phil Farnlacher
