**Re: Management of Scrap Tires – Woody's Auto Salvage – Second Follow-up Inspection**

Dear Mr. Baker:

During the early afternoon of July 30, 2009, I stopped at your auto salvage operation located at 1988 McKinley Avenue to discuss and observe how many additional tires have been removed from the area outside of the perimeter fence since my last inspection on June 30, 2009.

During our conversation you indicated that you have removed an additional 200 scrap tires since then for a total of 700 tires. As we discussed, for now you should continue to focus on removing those scrap tires that are off rims and holding water. Eventually, all of the scrap tires will need to be collected and removed.

If you have any questions, please feel free to call me at 728-3890. I can also be reached by email at [phil.farnlacher@epa.state.oh.us](mailto:phil.farnlacher@epa.state.oh.us).

Sincerely,

Phil Farnlacher  
Environmental Specialist
