Mr. Bill Caudill  
19611 Island Road  
Circleville, OH 43113

**Re: Illegal Disposal of Construction and Demolition Debris**

Dear Mr. Caudill:

During the afternoon of November 6, 2008, I met with your son, Will Caudill, and toured the area just to the south of your residence at 19611 Island Road. Upon walking over the area it is evident that some construction and demolition debris had been illegally disposed of at your property, which is a violation of Ohio Administrative Code Rule 3745-400-04(B). It appears that the majority of the debris is from the demolition of two homes that was brought to the property by a demolition contractor (Digger McCray) out of Ashville, Ohio. Additional material that needs to be removed and properly disposed at a licensed landfill includes some more structural wood and what appears to be a truck load of shingles. All of this material needs to be taken to either a licensed solid waste or construction and demolition debris facility. You must keep the disposal receipts as proof that the material has been removed to an appropriate facility.

Please note that if you wish to continue to bring in clean hard fill material (concrete, brick, blocks, pavers, etc.) to change the grade of the property, you must send a notification letter to the attention of Dallas Hettinger at the Pickaway County Health Department. The address at the health department is 465 East Ohio Street, Circleville, Ohio 43110.

I will recheck the property the first week of December to make sure that all of the construction and demolition debris that was illegally disposed has been removed and taken to a licensed disposal facility.

If you have any questions regarding this matter, please feel free to call me at (614) 728-3890.

Sincerely,

Phil Farnlacher
