P.O. Box 2219  
Wintersville, Ohio 43953

Dear Mr. Scugoza:

On November 16, 2010, I conducted a follow-up compliance evaluation inspection of the C&D Disposal Technologies, Inc.'s facility in Wintersville, Ohio to determine compliance with Ohio's hazardous waste laws and regulations as found under the Ohio Revised Code (ORC) and the Ohio Administrative Code (OAC). This was a follow-up inspection to the May 25, 2010 inspection.

Based on the May 25, 2010 compliance evaluation inspection, I sent you a Notice of Violation (NOV) letter on June 30, 2010 specifying the violations observed during the inspection. To date, C&D Disposal Technologies, Inc. has failed to respond to the June 30, 2010 NOV letter and remains in violation of the following:

- (1) **Used oil storage requirements for generators, OAC rule 375-279-22(D)**: Upon detection of a release of used oil to the environment a generator shall clean up and manage properly the release used oil and other materials.

During both the November 16, 2010 and the May 25, 2010 inspection, used oil was observed on the ground inside and outside of the maintenance building in the areas where used oil containers are being stored or accumulated. I have attached photographs of these containers. As required by this rule, C&D Disposal Technologies, Inc. must clean-up the contaminated soils. To demonstrate compliance with this rule, photographic documentation must be submitted to this office **within 15 days** of receipt of this letter demonstrating that the used oil contaminated soil has been removed.

Based on the follow-up inspection, C&D Disposal Technologies, Inc. has returned to compliance with the following violation discovered during the May 25, 2010 inspection:

1. **Used oil storage requirements for generators, OAC rule 375-279-22(C)**

If you have any questions regarding this letter, please call me at (740) 380.5256.

Sincerely,

Melody Stewart
