NON-NOTIFIER**

Mr. Tim Bommer, V.P.  
CAMCO Recycling, Inc.  
100 Fair Street  
Dillonvale, Ohio 43917

Dear Mr. Bommer:

On March 16, 2008, this office received a complaint alleging that oil and other hazardous materials were being placed on the ground and may be a threat to the city's wellfield. On March 18, 2008, John Rochotte and I performed a complaint investigation for the property located on Township Road 1187 in Dillonvale, Ohio. We did not observe signs of deliberate releases of oil or other fluids during the investigation, however, we did observe small oil sheens around the property. We also observed that several 55-gallon drums of used are being stored outside without bungs which could cause releases in the future.

Based on the investigation, a Notice of Violation letter was sent to you on March 27, 2008. I did not receive a response so I contacted you by telephone on August 25, 2008. On August 27, 2008 I received your response. Based on the information you provided in your letter, you have abated the following violation:

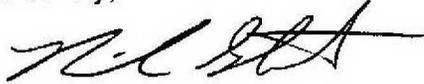

- (i) OAC Rule 3745-279-22(C), Used oil storage requirements for generators.

Your facility has now returned to compliance with the regulation cited from the complaint investigation.

CAMCO Recycling, Inc.
