NON-NOTIFIER**

Mr. Bob Damron
DPC Automotive
315 Two Ridge Road
Wintersville, Ohio 43953

Dear Mr. Damron:

On November 2, 2009, Rich Stewart and I conducted a complaint investigation to determine the validity of a complaint that was received by this office on October 26, 2009 and to determine your company's compliance with Ohio's hazardous waste laws and regulations, as found in the Ohio Revised Code and the Ohio Administrative Code (ORC and OAC, respectively). The complainant alleged that used oil was being disposed of on-site.

Based on the complaint investigation, I sent you a Notice of Violation (NOV) letter on November 3, 2009, specifying the violations observed during the complaint investigation. To date, DPC Automotive has failed to respond to the November 3, 2009 NOV letter and remains in violation of the following:

- (1) **Used oil storage requirements for generators, OAC rule 375-279-22(C):** Containers and aboveground tanks used to store used oil at generator facilities shall be labeled or marked clearly.

During the inspection, the used oil containers were not labeled as required by this rule. To demonstrate compliance with this rule, these containers must be labeled appropriately and photographic documentation must be sent to this office for review.

- (2) **Used oil storage requirements for generators, OAC rule 375-279-22(D):** Upon detection of a release of used oil to the environment a generator shall clean up and manage properly the release used oil and other materials.

Mr. Bob Damron
DPC Automotive

Page 2

During the site visit, used oil contaminated soil was observed around leaking engine components and from a 55-gallon container behind the facility. As required by this rule, the used oil release must be cleaned up. To demonstrate compliance with this rule, photographic documentation must be submitted to Ohio EPA demonstrating that the contaminated soil has been cleaned up properly.

Please submit the above requested documentation to this office **within 15 days** of receipt of this letter demonstrating that all violations have been abated.

If you have any questions regarding this letter, please call me at (740) 380.5256.

Sincerely,

Melody Stewart
District Representative
Division of Hazardous Waste Management

MS/mlm

Notice:

Ohio EPA's failure to list specific deficiencies or violations in this letter does not relieve your company from having to comply with all appropriate regulations.
