**LAWRENCE COUNTY  
GENERAL FILE  
(ROCK HILL BUS GARAGE)  
DHWM/SEDO  
NON-NOTIFIER**

Mr. Steve Wilds  
Rock Hill Bus Garage  
4719 State Route 93  
Ironton, Ohio 45638

Dear Mr. Wilds:

On March 15, 2011, I inspected the Rock Hill Bus Garage to determine compliance with Ohio's hazardous waste laws as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC). Steve Wells, of Ohio EPA's Division of Surface Water, accompanied me on the inspection. This letter will explain any hazardous waste violations found during the inspection and what you need to do to correct them, as well as any general concerns we have and what you can do to respond to those concerns.

We found the following violation of Ohio's hazardous waste laws:

- (1) ***OAC Rule 3745-279-24, Off-site Shipments of Used Oil by Generators.*** Generators of used oil must ensure that their used oil is transported only by transporters who have obtained U.S. EPA identification numbers. The used oil must be taken to an approved or registered used oil collection center.

Although no recent off-site shipments had occurred, Rock Hill Bus Garage had been allowing their used oil to be picked up by a facility that had a U.S. EPA ID# which did not include registration for the transport and/or collection of used oil. The facility burns the used oil in their used-oil-fired furnace. Since the date of the inspection, the transporting/receiving facility has registered as a Used Oil Collection Facility, and Rock Hill Bus Garage can now continue off-site shipment to this facility.

***Rock Hill Bus Garage has now returned to compliance with this rule.***

## GENERAL COMMENTS:

- **Tracking of Used Oil Shipments to a Burner.**

As we discussed during the inspection, a generator of used oil that ships used oil off-site to be burned for energy recovery must keep a record of each shipment of used oil to the used oil burner. These records can be a shipment log, an invoice, a bill of lading, or any other document that can demonstrate when the used oil shipment occurred, how many gallons were shipped, and to whom it was shipped. These records must be kept for three years after the shipment occurs.

Although no recent shipments have occurred, Rock Hill Bus Garage had incomplete records of used oil picked up by the facility that is burning the oil in their used-oil-fired furnace. I have enclosed an example used oil shipment log that you may wish to copy and use for tracking your future off-site used oil shipments.

- **Self-Transport of Used Oil by Generators.**

Rock Hill Bus Garage can also haul their used oil to a registered used oil collection site, as long as it is in quantities of less than 55 gallons at a time. The vehicle used to transport the used oil must be owned by the generator or an employee of the generator.

- **Management of Spent Fluorescent Lamps.**

I have also enclosed some information about the proper management of spent fluorescent lamps. Because all fluorescent lamps contain mercury, Ohio EPA recommends that you manage any spent fluorescent lamps under Ohio's Universal Waste Rule. If you manage the spent lamps as a "universal waste" and they will be recycled, you do not have to determine if they are hazardous waste. If you do not have your spent fluorescent lamps recycled, the lamps must be evaluated or analyzed to determine if they are a hazardous waste prior to disposing of them. I have enclosed a list of spent fluorescent lamp recyclers for your reference. You may also wish to contact your current waste handler, Safety-Kleen, to determine if they have a universal waste lamp recycling program as well.

While you are storing the spent fluorescent lamps for recycling, they must be containerized, such as in the empty boxes that your new lamps originally arrived in. Each container or box of spent lamps should be labeled "Universal Waste - Lamps", or "Waste Lamps", or "Used Lamps".

Enclosed, you will find a copy of the checklists that were completed during the inspection. You can find copies of the hazardous waste rules and other information on our division's web page at <http://www.epa.ohio.gov/Default.aspx?alias=www.epa.ohio.gov/dhwm>. Compliance assistance and pollution prevention information is available at <http://epa.ohio.gov/Default.aspx?alias=epa.ohio.gov/ocapp>.

If you have any questions or need assistance, please feel free to call me at 740-380-5237.

Sincerely,

Vicky D. German  
Division of Hazardous Waste Management  
Ohio EPA, Southeast District Office

VDG/mlm

Enclosure

cc: Steve Wells, Ohio EPA, Division of Surface Water  
Mr. Wes Hairston, Superintendent, Rock Hill Local School District

**NOTICE:**

*Ohio EPA's failure to list specific deficiencies or violations in this letter does not relieve you from having to comply with all applicable regulations.*

# CONDITIONALLY EXEMPT SMALL QUANTITY (CESQG) GENERATOR REQUIREMENTS

CESQG: <100Kg. (Approximately 25-30 gallons) of waste in a calendar month.

SQG: Between 100 and 1,000 Kg. (About 25 to under 300 gallons) of waste in a calendar month.

LQG: >1,000 Kg. (~300 gallons) of waste in a calendar month or >1 Kg. of acutely hazardous waste in a calendar month.

## WASTE EVALUATION

1. Have all wastes generated at the facility been adequately evaluated? [3745-52-11] Yes  No  NA   
Rock Hill Bus Garage has one parts cleaning machine that used SK-105 parts cleaner solvent. The parts cleaner is serviced by Safety-Kleen every three months and the spent parts cleaner is managed as a D001 hazardous waste.

## GENERATOR CLASSIFICATION

2. Does the generator produce <100 kg. of hazardous waste per month? Yes  No  NA   
(CESQG - Conditionally Exempt Small Quantity Generator)

**NOTE: If quantities of hazardous waste accumulated on-site at any one time exceed 1,000 Kg. - or the generator produces between 100 and 1,000 Kg. of hazardous waste per month, it is operating as a Small Quantity Generator (SQG).**

## OFF-SITE SHIPMENT OF HAZARDOUS WASTE

3. Does the CESQG ensure delivery of hazardous waste(s) to an off-site permitted TSD? Yes  No  NA   
[ORC §3734.02(F)]

## TREATMENT OF HAZARDOUS WASTE

4. Does the generator treat hazardous waste in a:
- a. Container that meets 3745-66-70 to 3745-66-77? Yes  No  NA
  - b. Tank that meets 3745-66-90 to 3745-66-101 except 3745-66-97(C)? Yes  No  NA
  - c. Drip pad that meets 3745-69-40 to 3745-69-45? Yes  No  NA
  - d. Containment building that meets 3745-256-100 to 3745-256-102? Yes  No  NA

**NOTE: If the CESQG conducts treatment they are subject to the LQG requirements.**

**NOTE: If waste is treated to meet LDRs, use the LDR checklist.**

## USED OIL GENERATOR COLLECTION CENTER, AND AGGREGATION POINT REQUIREMENTS

**NOTE:** A facility is subject to the federal SPCC regulations (40 CFR 112) if it is non-transportation related (e.g., fixed) and has an aggregate above ground storage capacity greater than 1,320 gallons or a total underground storage capacity greater than 42,000 gallons of oil (including used oil), and there is reasonable expectation of a discharge to navigable waters.

### PROHIBITIONS

1. Does the generator manage used oil in a surface impoundment or waste pile? Yes  No  N/A   
If yes:
- a. Is the surface impoundment or waste pile regulated as a hazardous waste management unit? [3745-279-12(A)] Yes  No  N/A
2. Is used oil used as a dust suppressant? [3745-279-12(B)] Yes  No  N/A
3. Is **off-specification** used oil fuel burned for energy recovery in devices specified in 3745-279-12(C)? Yes  No  N/A

**NOTE:** Multiple used oil checklists may be applicable if used oil handler is performing multiple tasks (e.g., if generating used oil and shipping directly to a burner, complete generator and marketer checklists).

### GENERATOR STANDARDS

4. Does the generator mix hazardous waste with used oil? If so, Yes  No  N/A   
a. Is the mixture managed as specified in 3745-279-10(B)? [3745-279-21(A)] Yes  No  N/A

**NOTE:** Used Oil mixed with listed (3745-51-30 to 3745-51-35) or characteristic (3745-51-20 to 3745-51-24) hazardous waste are subject to regulation as a hazardous waste, unless the listed hazardous waste is listed solely because it exhibits a hazardous characteristic, and the resultant mixtures do not exhibit a characteristic. Mixtures of used oil and CESQG hazardous waste are subject to OAC Chapter 3745-279.

5. Does the generator of a used oil containing greater than 1,000 ppm total halogens manage the used oil as a hazardous waste unless the presumption is rebutted successfully? [3745-279-21(B)] Yes  No  N/A

**NOTE:** If used oil contains greater than 1000 ppm total halogens, it is presumed to be listed hazardous waste until the presumption is successfully rebutted.

6. Does the generator store used oil in tanks, containers, or units subject to regulation as a hazardous waste management unit? [3745-279-22(A)] Yes  No  N/A
7. Are containers and aboveground tanks used to store used oil in good condition with no visible leaks? [3745-279-22(B)] Yes  No  N/A
8. Are containers, above ground tanks, and fill pipes used for underground tanks clearly labeled or marked "Used Oil?" [3745-279-22(C)] Yes  No  N/A
9. Has the generator, upon detection of a release of used oil, done the following: [3745-279-22(D)]
- a. Stopped the release? Yes  No  N/A
- b. Contained the release? Yes  No  N/A
- c. Cleaned up and properly managed the used oil and other materials? Yes  No  N/A
- d. Repaired or replaced the containers or tanks prior to returning them to service, if necessary? Yes  No  N/A

### ON-SITE BURNING IN SPACE HEATERS

10. Does the generator burn used oil in used-oil fired space heaters? [3745-279-23] Yes  No  N/A   
If so:
- a. Does the heater burn only used oil that owner/operator generates or used oil received from household do-it-yourself (DIY) used oil generators? Yes  No  N/A
- b. Is the heater designed to have a maximum capacity of not more than 0.5 million BTU per hour? Yes  No  N/A
- c. Are the combustion gases from heater vented to the ambient air? Yes  No  N/A

**NOTE:** Ash accumulated in a space heater must be managed in accordance with 3745-279-10(E).

### GENERATOR TRANSPORTATION

11. Does the generator have the used oil hauled only by transporters that have obtained a U.S. EPA ID#? [3745-279-24] Yes  No  N/A   
Although no recent off-site shipments had occurred, Rock Hill Bus Garage had been allowing their used oil to be picked up by a facility that had a U.S. EPA ID# which did not include registration for the transport and/or collection of used oil. The facility burns the used oil in their used-oil-fired furnace. Since the date of this inspection, the transporting/receiving facility has registered as a Used Oil Collection Facility.
12. If the generator self-transport used oil to an approved collection site or to an aggregation point owned by the generator: [3745-279-24]
- a. Does the generator transport used oil in a vehicle owned by the generator or an employee of the generator? [3745-279-24] Yes  No  N/A
- b. Does the generator transport more than 55 gallons of used oil at any time? [3745-279-24] Yes  No  N/A

**NOTE:** Used oil generators may arrange for used oil to be transported by a transporter without a U.S. EPA ID # if the used oil is reclaimed under a contractual agreement (i.e., tolling arrangement).

### COLLECTION CENTERS AND AGGREGATION POINTS

13. Is the DIY used oil collection center in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-30] Yes  No  N/A
14. Is the non-DIY used oil collection center registered with Ohio EPA? [3745-279-31] Yes  No  N/A
15. Is the used oil aggregation point in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-32] Yes  No  N/A

**NOTE:** Complete Used Oil Generator and any other applicable used oil handler checklist (e.g., marketer, burner, etc.) for used oil collection centers and aggregation points.

## USED OIL MARKETER REQUIREMENTS

**NOTE: A facility is subject to the federal SPCC regulations (40 CFR 112) if it is non-transportation related (e.g., fixed) and has an aggregate above ground storage capacity greater than 1,320 gallons or a total underground storage capacity greater than 42,000 gallons of oil (including used oil), and there is reasonable expectation of a discharge to navigable waters.**

### PROHIBITIONS

- |    |   |                              |  |   |
|----|---|------------------------------|--|---|
| 1. | Does the Used Oil Marketer manage used oil in a surface impoundment or waste pile?<br>If yes:             | Yes <input type="checkbox"/> | No <input checked="" type="checkbox"/> | N/A <input type="checkbox"/>            |
| a. | Is the surface impoundment or waste pile regulated as a hazardous waste management unit? [3745-279-12(A)] | Yes <input type="checkbox"/> | No <input type="checkbox"/>            | N/A <input checked="" type="checkbox"/> |
| 2. | Is used oil used as a dust suppressant? [3745-279-12(B)]  | Yes <input type="checkbox"/> | No <input checked="" type="checkbox"/> | N/A <input type="checkbox"/>            |
| 3. | Is off-specification used oil fuel burned for energy recovery in devices specified in 3745-279-12(C)?     | Yes <input type="checkbox"/> | No <input type="checkbox"/>            | N/A <input checked="" type="checkbox"/> |

**NOTE: Multiple used oil checklists may be applicable if used oil handler is performing multiple tasks (e.g., if generating used oil and shipping directly to a burner, complete generator and marketer checklists).**

### USED OIL MARKETER REQUIREMENTS

- |    |   |   |  |   |
|----|---|---|--|---|
| 4. | Does the used oil fuel marketer initiate shipments of <b>OFF-SPECIFICATION</b> used oil only to a used oil burner that has a U.S. EPA ID# and burns the used oil in an industrial furnace or boiler identified in 3745-279-61(A)? [3745-279-71]   | Yes <input type="checkbox"/>            | No <input type="checkbox"/>            | N/A <input checked="" type="checkbox"/> |
| 5. | Does the generator, transporter, processor/re-refiner, or burner <b>who first claims that the used oil meets the specification for used oil fuel</b> under 3745-279-11 keep copies of analyses of the used oil (or other information used to make the determination) for at least three years? [3745-279-72(B)] | Yes <input checked="" type="checkbox"/> | No <input type="checkbox"/>            | N/A <input type="checkbox"/>            |
| 6. | Has the used oil marketer notified Ohio EPA or U.S. EPA and obtained a U.S. EPA ID#? [3745-279-73(A)]   | Yes <input type="checkbox"/>            | No <input type="checkbox"/>            | N/A <input checked="" type="checkbox"/> |
| 7. | Does the used oil marketer keep a record of each shipment of <b>OFF-SPECIFICATION</b> used oil directed to a used oil burner? [3745-279-74(A)]  | Yes <input type="checkbox"/>            | No <input type="checkbox"/>            | N/A <input checked="" type="checkbox"/> |
| a. | Does each record include the name and address of the transporter who delivers the used oil to the burner? [3745-279-74(A)(1)]   | Yes <input type="checkbox"/>            | No <input type="checkbox"/>            | N/A <input checked="" type="checkbox"/> |
| b. | Does each record include the name and address of the burner who receives the oil? [3745-279-74(A)(2)]   | Yes <input type="checkbox"/>            | No <input type="checkbox"/>            | N/A <input checked="" type="checkbox"/> |
| c. | Does each record include the U.S. EPA ID# of the transporter that delivers the used oil to the burner? [3745-279-74(A)(3)]  | Yes <input type="checkbox"/>            | No <input type="checkbox"/>            | N/A <input checked="" type="checkbox"/> |
| d. | Does each record include the U.S. EPA ID# of the burner? [3745-279-74(A)(4)]  | Yes <input type="checkbox"/>            | No <input type="checkbox"/>            | N/A <input checked="" type="checkbox"/> |
| e. | Does each record include the quantity of the used oil shipped? [3745-279-74(A)(5)]  | Yes <input type="checkbox"/>            | No <input type="checkbox"/>            | N/A <input checked="" type="checkbox"/> |
| f. | Does each record include the date of shipment? [3745-279-74(A)(6)]  | Yes <input type="checkbox"/>            | No <input type="checkbox"/>            | N/A <input checked="" type="checkbox"/> |
| 8. | Does the generator, transporter, processor/re-refiner, or burner <b>who first claims that the used oil meets the fuel specifications</b> under 3745-279-11 keep a record of each shipment of used oil to an on-spec used oil burner? [3745-279-74(B)]   | Yes <input type="checkbox"/>            | No <input checked="" type="checkbox"/> | N/A <input type="checkbox"/>            |

**Rock Hill Bus Garage had incomplete records of used oil picked up by the facility that is burning the oil in their used-oil-fired furnace. Since the date of this inspection, Rock Hill Bus Garage has implemented a log to track off-site shipments of used oil, but no recent shipments have occurred.**

- a. Does each record include the name and address of the facility receiving the shipment? [3745-279-74(B)(1)] Yes  No  N/A
- b. Does each record include quantity of used oil fuel delivered? [3745-279-74(B)(2)] Yes  No  N/A
- c. Does each record include date of shipment or delivery? [3745-279-74(B)(3)] Yes  No  N/A
- d. Does each record include a cross-reference to the record of used oil analysis or other information used to make the determination that the used oil meets the specification as required in 3745-279-72(A)? [3745-279-74(B)(4)] Yes  No  N/A
9. Are the records described in 3745-279-74(A) and (B) maintained for at least three years? [3745-279-74(C)] Yes  No  N/A
10. Before the used oil generator, transporter or processor/re-refiner directs the first shipment of **OFF-SPECIFICATION** used oil to a burner, does he obtain a one time written and signed notice from the burner certifying that:
- a. The burner has notified Ohio EPA stating the location and general description of the used oil management activities? [3745-279-75(A)(1)] Yes  No  N/A
- b. The burner will burn the off-spec used oil only in an industrial furnace or boiler identified in 3745-279-61(A)? [3745-279-75(A)(2)] Yes  No  N/A
11. Is the certification maintained for at least three years from the date the last shipment of off-spec used oil was shipped to the burner? [3745-279-75(B)] Yes  No  N/A

## GENERAL FACILITY INFORMATION

Rock Hill Bus Garage  
4719 State Route 93  
Ironton, Ohio 45638

Rock Hill Local School District consists of Rock Hill Senior High School, Rock Hill Middle School, Rock Hill Elementary School, and Rock Hill Child Development Center/Pre-School. These facilities are all located within a campus on County Road 26 in Ironton, Ohio, which opened in 2002. The district serves approximately 1800 kindergarten through 12<sup>th</sup> grade students. The Rock Hill District formerly consisted of four separate school districts, which were located in the towns of

Decatur, Hanging Rock, Kitts Hill, and Pedro. Hanging Rock, Kitts Hill, and Pedro consolidated in 1949; Decatur Township schools joined in 1965. The Rock Hill Bus Garage services and maintains the buses for the entire Rock Hill School District, which is one of the largest districts in the state in terms of geographic square miles.

## PROCESS INFORMATION AND WASTES GENERATED

Maintenance, repair, and service on school district buses generates used oil and spent oil filters, spent antifreeze, and spent parts cleaner solvent (D001). Spent oil filters, antifreeze, and parts cleaner solvent are managed through Safety-Kleen, and used oil is collected and sent off-site to a registered used oil collection facility for burning in a used-oil-fired furnace.

## REGULATORY HISTORY

The facility has not been previously inspected for compliance with Ohio's hazardous waste regulations.
