**LAWRENCE COUNTY  
GENERAL FILE  
(CITY OF IRLINGTON MUNICIPAL  
GARAGE)  
DHWM/SEDO**

Mr. Mike Pemberton  
City of Irlington Municipal Garage  
303 Hecla Street  
Irlington, Ohio 45638

**RE: Second Notice of Violation**

Dear Mr. Pemberton:

On June 23, 2010, I visited the City of Irlington's Municipal Garage to investigate a complaint received by Ohio EPA, which alleged that tires, solid waste, paint, gasoline, and used oil have been dumped behind the city garage. I sent you a Notice of Violation letter on June 30, 2010, specifying the violation that was observed during the inspection of the garage. To date, City of Irlington Municipal Garage has failed to respond to the June 30, 2010 Notice of Violation letter, and remains in violation of the following:

- (1) OAC Rule 3745-279-22(D), Used Oil Storage Requirements for Generators – Response to Releases.** Upon detection of a release of used oil to the environment, a used oil generator must clean up and properly dispose of the released used oil and any clean up materials.

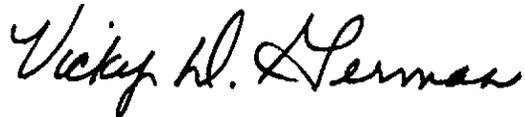

One dump truck parked outside behind the main garage building has been leaking oil. Several areas of the gravel/asphalt area were stained with oil where the truck had been parked. The oil stain led directly into a storm drain located behind the garage.

City of Irlington's Municipal Garage must: 1) stop the leak and/or ensure that all the oil leaking from the truck is collected and does not leak onto the ground or into the storm drain; and 2) clean up all the visible used oil on the ground from previous leaks, including all oil-stained soil, and properly manage the used oil clean up materials. Any oil-contaminated soil and materials generated from the clean up of the used oil can be disposed of as a solid waste along with your regular trash. Once these issues have been addressed, please send me a photograph demonstrating that this area has been cleaned up.

**Please submit the above requested documentation to this office within 15 days of your receipt of this letter, demonstrating that this violation has been abated.**

If you should have any questions regarding this letter, please feel free to call me at (740) 380-5237.

Sincerely,

Vicky D. German  
Division of Hazardous Waste Management  
Ohio EPA, Southeast District Office

**LAWRENCE COUNTY  
GENERAL FILE  
(LAWRENCE CO JVS)  
DHWM/SEDO  
OHD986970846**

Mr. Steve Dodgion, Superintendent  
Lawrence County JVS - Collins Career Center  
11627 State Route 243  
Chesapeake, Ohio 45619

Dear Mr. Dodgion:

On June 23, 2010, I inspected the Lawrence County Joint Vocational School District's Collins Career Center in Chesapeake, to determine compliance with Ohio's hazardous waste laws as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC). I was accompanied on the inspection by Steve Wells of Ohio EPA's Division of Surface Water (DSW). This letter will explain any violations discovered and what you need to do to address those violations, as well as any general concerns that were noted and what you can do to address those concerns.

No violations of Ohio's hazardous waste laws were found during the inspection.

Enclosed, you will find a copy of the checklists that were completed as a result of the inspection. You can find copies of the hazardous waste rules on our division's web page at: <http://www.epa.state.oh.us/dhwm>. Compliance assistance, pollution prevention, and other information is available at: <http://www.epa.state.oh.us/ocapp/ocapp.html>.

Should you have any questions or require assistance, please feel free to call me at 740-380-5237.

Sincerely,

Vicky D. German  
Division of Hazardous Waste Management  
Ohio EPA, Southeast District Office

# CONDITIONALLY EXEMPT SMALL QUANTITY (CESQG) GENERATOR REQUIREMENTS

CESQG: <100Kg. (About 25 to 30 gallons) of waste in a calendar month.

SQG: Between 100 and 1,000 Kg. (About 25 to under 300 gallons) of waste in a calendar month.

LQG: >1,000 Kg. (~300 gallons) of waste in a calendar month or >1 Kg. of acutely hazardous waste in a calendar month.

## WASTE EVALUATION

1. Have all wastes generated at the facility been adequately evaluated? [3745-52-11] Yes  No  NA

## GENERATOR CLASSIFICATION

2. Does the generator generate <100 kg. of hazardous waste per month? (Conditionally Exempt Small Quantity Generator - CESQG) Yes  No  NA

*At the time of the inspection, the Lawrence Co. JVS Collins Career Center was operating as a CESQG. Waste generation is normally at SQG quantities (dependent on when classes are in session).*

**NOTE: If quantities of hazardous waste accumulated on-site at any one time exceed 1,000 Kg. - or the generator produces between 100 and 1,000 Kg. of hazardous waste per month, it is operating as a Small Quantity Generator (SQG).**

## OFF-SITE SHIPMENT OF HAZARDOUS WASTE

3. Does the CESQG ensure delivery of hazardous waste(s) to an off-site permitted TSD? [ORC §3734.02(F)] Yes  No  NA

## TREATMENT OF HAZARDOUS WASTE

4. Does the generator treat hazardous waste in a:
- a. Container that meets 3745-66-70 to 3745-66-77? Yes  No  NA
  - b. Tank that meets 3745-66-90 to 3745-66-101 except 3745-66-97(C)? Yes  No  NA
  - c. Drip pad that meets 3745-69-40 to 3745-69-45? Yes  No  NA
  - d. Containment building that meets 3745-256-100 to 3745-256-102? Yes  No  NA

**NOTE: If the CESQG conducts treatment they are subject to the LQG requirements.**

## USED OIL GENERATOR, COLLECTION CENTER, AND AGGREGATION POINT REQUIREMENTS

**NOTE:** A facility is subject to the federal SPCC regulations (40 CFR 112) if it is non-transportation related (e.g., fixed) and has an aggregate above ground storage capacity greater than 1,320 gallons or a total underground storage capacity greater than 42,000 gallons of oil (including used oil), and there is reasonable expectation of a discharge to navigable waters.

### PROHIBITIONS

1. Does the generator manage used oil in a surface impoundment or waste pile?  
If yes: Yes  No  N/A
- a. Is the surface impoundment or waste pile regulated as a hazardous waste management unit? [3745-279-12(A)] Yes  No  N/A
2. Is used oil used as a dust suppressant? [3745-279-12(B)] Yes  No  N/A
3. Is off-specification used oil fuel burned for energy recovery in devices specified in 3745-279-12(C)? Yes  No  N/A

**NOTE:** Multiple used oil checklists may be applicable if used oil handler is performing multiple tasks (e.g., if generating used oil and shipping directly to a burner, complete generator and marketer checklists at a minimum).

### GENERATOR STANDARDS

4. Does the generator mix hazardous waste with used oil? If so, Yes  No  N/A
- a. Is the mixture managed as specified in 3745-279-10(B)? [3745-279-21(A)] Yes  No  N/A

**NOTE:** Used Oil mixed with listed (3745-51-30 to 3745-51-35) or characteristic (3745-51-20 to 3745-51-24) hazardous waste are subject to regulation as a hazardous waste, unless the listed hazardous waste is listed solely because it exhibits a hazardous characteristic, and the resultant mixtures do not exhibit a characteristic. Mixtures of used oil and CESQG hazardous waste are subject to OAC Chapter 3745-279.

5. Does the generator of a used oil containing greater than 1,000 ppm total halogens manage the used oil as a hazardous waste unless the presumption is rebutted successfully? [3745-279-21(B)] Yes  No  N/A

**NOTE:** If used oil contains greater than 1000 ppm total halogens, it is presumed to be listed hazardous waste until the presumption is successfully rebutted.

6. Does the generator store used oil in tanks; or containers; or a unit(s) subject to regulation as a hazardous waste management unit? [3745-279-22(A)] Yes  No  N/A
7. Are containers and aboveground tanks used to store used oil in good condition with no visible leaks? [3745-279-22(B)] Yes  No  N/A
8. Are containers, above ground tanks, and fill pipes used for underground tanks clearly labeled or marked "Used Oil?" [3745-279-22(C)] Yes  No  N/A
9. Has the generator, upon detection of a release of used oil, done the following: [3745-279-22(D)]
- a. Stopped the release? Yes  No  N/A
- b. Contained the release? Yes  No  N/A
- c. Cleaned up and properly managed the used oil and other materials? Yes  No  N/A
- d. Repaired or replaced the containers or tanks prior to returning them to service, if necessary? Yes  No  N/A

## ON-SITE BURNING IN SPACE HEATERS

10. Does the generator burn used oil in used-oil fired space heaters? [3745-279-23]  
If so: Yes  No  N/A
- a. Does the heater burn only used oil that owner/operator generates or used oil received from household do-it-yourself (DIY) used oil generators? Yes  No  N/A
- b. Is the heater designed to have a maximum capacity of not more than 0.5 million BTU per hour? Yes  No  N/A
- c. Are the combustion gases from heater vented to the ambient air? Yes  No  N/A

## GENERATOR TRANSPORTATION

11. If the generator self-transport used oil to an approved collection site or to an aggregation point owned by the generator: [3745-279-24]
- a. Does the generator transport used oil in a vehicle owned by the generator or an employee of the generator?[3745-279-24] Yes  No  N/A
- b. Does the generator transport more than 55 gallons of used oil at any time? [3745-279-24] Yes  No  N/A

**NOTE: Used oil generators may arrange for used oil to be transported by a transporter without a U.S. EPA ID # if the used oil is reclaimed under a contractual agreement (i.e., tolling arrangement).**

## COLLECTION CENTERS AND AGGREGATION POINTS

12. Is the DIY used oil collection center in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-30] Yes  No  N/A
13. Is the non-DIY used oil collection center registered with Ohio EPA? [3745-279-31] Yes  No  N/A
14. Is the used oil aggregation point in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-32] Yes  No  N/A

**NOTE: Complete Used Oil Generator and any other applicable used oil handler checklist (e.g., marketer, burner, etc.) for used oil collection centers and aggregation points.**

# SMALL QUANTITY UNIVERSAL WASTE HANDLER REQUIREMENTS - LAMPS

Large Quantity Universal Waste Handler (LQUWH) = 5,000 Kg (11,023 lb) or more per month  
Small Quantity Universal Waste Handler (SQUWH) = 5,000 Kg (11,023 lb) or less per month

## PROHIBITIONS

1. Did the SQUWH dispose of universal waste? [3745-273-11(A)] Yes  No  NA
2. Did the SQUWH dilute or treat universal waste, except when responding to releases as provided in 3745-273-17 or managing specific wastes as provided in 3745-273-13? [3745-273-11(B)] Yes  No  NA

## UNIVERSAL WASTE LAMPS

### WASTE MANAGEMENT - LABELING/MARKING

8. Does the SQUWH contain lamps in containers or packages that are structurally sound, adequate to prevent breakage, and are compatible with contents of the lamps? Are containers or packages closed and do they lack evidence of leakage, spillage or damage that could cause leakage? [3745-273-13(D)(1)] Yes  No  NA
9. Are lamps that show evidence of breakage, leakage or damage that could cause a release of mercury or hazardous constituents into the environment immediately cleaned up? Are they placed into a container that is closed, structurally sound, compatible with the contents of the lamps, and lack evidence of leakage spillage or damage that could cause leakage or releases of mercury or hazardous waste constituents to the environment? [3745-273-13(D)(2)] Yes  No  NA
10. Are the lamps or containers or packages of lamps labeled with the words "Universal Waste - Lamps" or "Waste Lamps" or "Used Lamps"? [3745-273-14(E)] Yes  No  NA

**NOTE:** Treatment (such as crushing) by a UWH is prohibited under this rule unless the facility is permitted for such activities [3745-273-31(B)]. A generator crushing lamps must manage lamps according to hazardous waste rules (OAC Chapter 3745-52). Lamp crushing is a form of generator treatment (OAC 3745-52-34). Crushed lamps must be transported by a registered hazardous waste transporter to a permitted hazardous waste facility under a hazardous waste manifest.

### ACCUMULATION TIME

**NOTE:** Accumulation is defined as the date generated or the date received from another handler.

11. Is the waste accumulated for less than one year? [3745-273-15(A)] If not: Yes  No  NA 
  - a. Was the waste accumulated over one year in order to facilitate proper recovery, treatment or disposal? (Burden of proof is on the handler to demonstrate) [3745-273-15(B)] Yes  No  NA
12. Is the length of time the universal waste is stored documented by one of the following: [3745-273-15(C)]
  - a. Marking or labeling the container with the earliest date when the universal waste became a waste or was received? [3745-273-15(C)(1)] Yes  No  NA
  - b. Marking or labeling individual item(s) of universal waste with the earliest date that it became a waste or was received? [3745-273-15(C)(2)] Yes  No  NA
  - c. Maintaining an inventory system on-site that identifies the date the universal waste became a waste or was received? [3745-273-15(C)(3)] Yes  No  NA
  - d. Maintaining an inventory system on-site that identifies the earliest date that any universal waste in a group of universal waste items or a group of containers became a universal waste or was received? [3745-273-15(C)(4)] Yes  No  NA

- e. Placing the universal waste in a specific accumulation area and identifying the earliest start date or date received? [3745-273-15(C)(5)] Yes  No  NA
- f. Any other method, which clearly demonstrates, the length of time the universal waste has been accumulated from the date it became a waste or was received? [3745-273-15(C)(6)] Yes  No  NA

### EMPLOYEE TRAINING

13. Are employees who handle or have the responsibility for managing universal waste informed of waste handling/emergency procedures, relative to their responsibilities? [3745-273-16] Yes  No  NA

### RESPONSE TO RELEASES

14. Are releases of universal waste and other residues immediately contained? [3745-273-17(A)] Yes  No  NA
15. Is the material released characterized? [3745-273-17(B)] Yes  No  NA
16. If the material released is a hazardous waste, is it managed as required in OAC Chapters 3745-50 through 3745-69? (If the waste is hazardous, the handler is considered the generator of the waste and is subject to Chapter 3745-52) [3745-273-17 (B)] Yes  No  NA

### OFF-SITE SHIPMENTS

**NOTE: If a SQUWH self-transport waste, then they must comply with the Universal Waste transporter requirements.**

17. Are universal wastes sent to either another handler, destination facility or foreign destination? [3745-273-18(A)] Yes  No  NA

**NOTE: SQUWHs are prohibited to send waste to any other facility.**

18. If the universal waste meets the definition of hazardous material under 49 CFR 171-180, are DOT requirements met with regard to package, labels, placards and shipping papers? [3745-273-18(C)] Yes  No  NA
19. Prior to shipping universal waste off-site, does the receiver agree to receive the shipment? [3745-273-18(D)] Yes  No  NA
20. If the universal waste shipped off-site is rejected by another handler or destination facility does the originating handler do one of the following:
- a. Receive the waste back? [3745-273-18(E)(1)] Yes  No  NA
- b. Agree to where the shipment will be sent? [3745-273-18(E)(2)] Yes  No  NA
21. If a handler rejects a partial or full load from another handler, does the receiving handler contact the originating handler and discuss one of the following:
- a. Sending the waste back to the originating handler? [3745-273-18(F)(1)] Yes  No  NA
- b. Sending the shipment to a destination facility? (If both the originating and receiving handler agree) [3745-273-18(F)(2)] Yes  No  NA
22. If the handler received a shipment of hazardous waste that was not universal waste, did the SQUWH immediately notify Ohio EPA? [3745-273-18(G)] Yes  No  NA
23. If the handler received a shipment of nonhazardous, non-universal waste, was the waste managed in accordance with applicable law? [3745-273-18(H)] Yes  No  NA

## EXPORTS

24. Is waste being sent to a foreign destination? If so: Yes  No  NA
- a. Does the small quantity handler comply with primary exporter requirements in OAC 3745-52-53, 3745-52-56, and 3745-52-57? [3745-273-20(A)] Yes  No  NA
- b. Is waste exported only upon consent of the receiving country and in conformance with U.S. EPA' s "Acknowledgment of Consent" as defined in 3745-52-50 to 3745-52-57? [3745-273-20(B)] Yes  No  NA
- c. Is a copy of U.S. EPA' s "Acknowledgment of Consent" provided to the transporter? [3745-273-20(C)] Yes  No  NA

## **PROCESS DESCRIPTION**

SOURCE: [WWW.COLLINS-CC.K12.OH.US/MAINPAGE/SCHOOL](http://WWW.COLLINS-CC.K12.OH.US/MAINPAGE/SCHOOL)

The Lawrence County Joint Vocational School District's Collins Career Center in Chesapeake, Ohio was established in 1976 as a secondary career technical education institution, serving the seven public high schools of Lawrence County. In 1986, Collins Career Center expanded its focus to include educational resources for adult students. The facility further expanded in 1996 to add a workforce development resource center to serve Lawrence County agency customers, and in 1997, began offering customized training services to business and industry. At the high school level, the Lawrence County Joint Vocational School's Collins Career Center currently offers 21 career technical programs with pathways to employment or post-secondary education. At the adult education level, Collins Career Center offers 22 programs in the fields of computer technology, health, protective services, and trade and industry. The facility has many on-site labs such as auto body/auto repair carpentry, electronics, air conditioning, etc. associated with hands-on trade and industry instruction.

## **WASTE MANAGEMENT INFORMATION**

Wastes are generated in the Auto Body Lab, the Auto Technology Lab, and the Diesel lab, as well as the facility's Maintenance Garage.

## **REGULATORY HISTORY**

Lawrence County Joint Vocational School District's Collins Career Center was last inspected for compliance with Ohio EPA's hazardous waste regulations on December 4, 1998. Violations discovered during the inspection were abated on February 17, 1999.
