**MONROE COUNTY
GENERAL FILE
(GARY RUBLE LLC)
DHWM/SEDO
NON NOTIFIER**

Mr. Gary Ruble
Gary Ruble LLC.
35479 SR 78
Lewisville, Ohio 43754

Dear Mr. Ruble:

On ~~September~~^{August} 20, 2009, Ohio EPA received a complaint alleging that used oil and tires have been improperly stored on your property on SR 78. On September 17, 2009, Trevor Irwin (Division of Solid and Infectious Waste Management) and I performed a complaint investigation of your property to determine the validity of the complaint. I also determined your facility's compliance with Ohio's hazardous waste laws and regulations as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC). Mr. Irwin will address solid waste issues in a separate letter.

Based on the observations made during the investigation, you are in violation of the following hazardous waste regulations:

(1) OAC rule 3745-52-11 Hazardous waste determination.

Any person who generates a waste, as defined in rule 3745-51-02 of the Administrative Code, must determine if that waste is a hazardous waste using the following method...determine if the waste is listed as a hazardous waste in rules 3745-51-30 to 3745-51-35, and then determine whether the waste is identified in rules 3745-51-20 to 3745-51-24 of the Administrative Code by either: (1) Testing the waste according to the methods set forth in rules 3745-51-20 to 3745-51-24 of the Administrative Code, or according to an equivalent method approved by the Region V Administrator of U.S. EPA pursuant to 40 CFR 260.21; or (2) Applying knowledge of the hazardous characteristic of the waste in light of the materials or the processes used.

We observed three groups of unmarked drums on the property across SR 78 from your office (see attached photographs). Several of these drums are leaking and have released their contents onto the ground (from the semi-trailer and the drums near your access lane). Another group of drums nearer SR 78 do not appear to be leaking but also appear to be in poor condition. The drums of materials stored at this property are wastes because they have been "discarded" per the hazardous

waste rules. You must determine if they are hazardous wastes. I understand that the contents of these drums may be unknown. If that is the case, you will have to have samples collected from these drums and have them analyzed to determine if they exhibit any hazardous characteristics. Drums containing hazardous waste must be shipped off-site to a permitted hazardous waste facility. You will also need to have all the drums that are in poor condition (leaking or unsafe to transport) to be overpacked to prevent release. This must be done as soon as possible. Once the drums are overpacked or removed, all contaminated soils will need to be collected and disposed of properly (at a permitted solid or hazardous waste disposal facility). Please contact me five days prior to the sampling or overpacking activities.

- (2) **Used oil storage requirements for generators**, OAC Rule 3745-279-22(D): Upon detection of a release of used oil... a generator shall perform the following cleanup steps: (1) stop the release; (2) contain the released used oil; (3) clean up and properly manage the released used oil and other materials; and (4) if necessary, to prevent future releases, repair or replace any leaking used oil storage containers or tanks prior to returning them to service.

We observed that used oil was spilled onto soils near your shop building, a couple large leaks of hydraulic oil from your equipment near the shop, and used oil soaked soil on the property across SR 78 from your office from leaking drums. To demonstrate compliance, provide photographs of these areas once the used oil has been removed. I have attached Ohio EPA's guidance for used oil generators for your use.

- (3) **Used oil storage requirements for generators**, OAC rule 3745-279-22(C): Paragraph (C): Containers and aboveground tanks used to store used oil at generator facilities shall be marked clearly with the words "Used Oil."

During the inspection, we observed that a 1,000 gallon above-ground storage tank of used oil behind the shop, and a drum inside the shop, were not labeled "Used Oil". Please provide photographs of this tank and any other containers of used oil once they've been labeled "used oil".

- (4) **Used oil storage requirements for generators**, OAC rule 3745-279-24: Except as provided in (A) to (C) of this rule, generators of used oil must ensure that their used oil is transported only by transporters who have obtained U.S. EPA identification numbers.

We found no documentation demonstrating that your used oil is collected by a transporter with the appropriate identification numbers. To demonstrate compliance with this rule, you must provide copies of receipts for your used oil from such transporters.

Mr. Gary Ruble
Gary Ruble LCC.
September 24, 2009
Page 3

Other Compliance Issues:

During the inspection, we observed that you have a large fuel oil storage tank in addition to the used oil tank; together, you have more than 1,420 gallons of storage capacity, therefore, the Spill Prevention, Control and Cleanup (SPCC) regulations apply to your facility. I have attached a guidance document regarding these regulations for your use. Compliance with these regulations should help ensure that you do not have a major spill and avoid a costly cleanup.

Additional information on the hazardous waste rules, pollution prevention assessments and other useful information are available on Ohio EPA's website at www.epa.state.oh.us. If you have any questions regarding waste management or pollution prevention activities, please call me at (740) 380-5278.

Sincerely,

Richard Stewart
District Representative
Division of Hazardous Waste Management

RS/mlm

Cc: Trevor Irwin

NOTICE:

Ohio EPA's failure to list specific deficiencies or violations in this letter does not relieve your company from having to comply with all applicable regulations.

REMARKS-GENERAL INFORMATION**General Process Information:**

Gary Ruble LLC performs heavy earth moving and excavation, on-site operations include a repair/maintenance shop and equipemnt storage.

Regulatory/Enforcement History (if applicable):

No information regarding this facility was found in DHWM's files.

Additional P2 remarks and information:

Small amount of solid waste is currently generated, hazardous waste generation currently unknown.

Would this facility be interested in a P2 assessment? Yes* No *If yes, refer promptly to your district P2 coordinator.

Office of Compliance Assistance and Pollution Prevention - 1-800-329-7518 or p2mail@epa.state.oh.us or www.epa.state.oh.us/ocapp/ocapp.html

Other:

**USED OIL INSPECTION CHECKLIST
GENERATORS, COLLECTION CENTERS AND AGGREGATION POINTS**

NOTE: A facility is subject to the federal SPCC regulations (40 CFR 112) if it is non-transportation related (e.g., fixed) and has an aggregate above ground storage capacity greater than 1,320 gallons or a total underground storage capacity greater than 42,000 gallons of oil (including used oil), and there is reasonable expectation of a discharge to navigable waters.

PROHIBITIONS

1.	Does the generator manage used oil in a surface impoundment or waste pile? If yes:	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
a.	Is the surface impoundment or waste pile regulated as a hazardous waste management unit? [3745-279-12(A)]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

NOTE: For example, used oil contaminated scrap metal stored in a pile.

2.	Is used oil used as a dust suppressant? [3745-279-12(B)]	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
3.	Is off-specification used oil fuel burned for energy recovery in devices specified in 3745-279-12(C)?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>

NOTE: Multiple used oil checklists may be applicable if used oil handler is performing multiple tasks (e.g., If generating used oil and shipping directly to a burner, complete generator and marketer checklists at a minimum).

GENERATOR STANDARDS

4.	Does the generator mix hazardous waste with used oil? If so,	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
a.	Is the mixture managed as specified in 3745-279-10(B)? [3745-279-21(A)]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

NOTE: Used Oil mixed with listed (3745-51-30 to 3745-51-35) or characteristic (3745-51-20 to 3745-51-24) hazardous waste are subject to regulation as a hazardous waste, unless the listed hazardous waste is listed solely because it exhibits a hazardous characteristic, and the resultant mixtures do not exhibit a characteristic. Mixtures of used oil and CESQG hazardous waste are subject to OAC Chapter 3745-279.

5.	Does the generator of a used oil containing greater than 1,000 ppm total halogens manage the used oil as a hazardous waste unless the presumption is rebutted successfully? [3745-279-21(B)]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
----	--	--

NOTE: If used oil contains greater than 1000 ppm total halogens, it is presumed to be listed hazardous waste until the presumption is successfully rebutted.

6.	Does the generator store used oil in tanks; or containers; or a unit(s) subject to regulation as a hazardous waste management unit? [3745-279-22(A)]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
7.	Are containers and aboveground tanks used to store used oil in good condition with no visible leaks? [3745-279-22(B)]	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
8.	Are containers, above ground tanks, and fill pipes used for underground tanks clearly labeled or marked "Used Oil?" [3745-279-22(C)]	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
9.	Has the generator, upon detection of a release of used oil, done the following: [3745-279-22(D)]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
a.	Stopped the release?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
b.	Contained the release?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
c.	Cleaned up and properly managed the used oil and other materials?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
d.	Repaired or replaced the containers or tanks prior to returning them to service, if necessary?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>

ON-SITE BURNING IN SPACE HEATER

10.	Does the generator burn used oil in used-oil fired space heaters? [3745-279-23] If so:	
a.	Does the heater burn only used oil that owner/operator generates or used oil received from household do-it-yourself (DIY) used oil	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

	generators?	
b.	Is the heater designed to have a maximum capacity of not more than 0.5 million BTU per hour?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
c.	Are the combustion gases from heater vented to the ambient air?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

NOTE: Ash accumulated in a space heater must be managed in accordance with 3745-279-10(E).

GENERATOR TRANSPORTATION

11.	Does the generator have the used oil hauled only by transporters that have obtained a U.S. EPA ID#? [3745-279-24]	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
12.	If the generator self-transport used oil to an approved collection site or to an aggregation point owned by the generator: [3745-279-24]	
a.	Does the generator transport used oil in a vehicle owned by the generator or an employee of the generator? [3745-279-24]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
b.	Does the generator transport more than 55 gallons of used oil at any time? [3745-279-24]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

NOTE: Used oil generators may arrange for used oil to be transported by a transporter without a U.S. EPA ID # if the used oil is reclaimed under a contractual agreement (i.e., tolling arrangement).

COLLECTION CENTERS AND AGGREGATION POINTS

13.	Is the DIY used oil collection center in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-30]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
14.	Is the non-DIY used oil collection center registered with Ohio EPA? [3745-279-31]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
15.	Is the used oil aggregation point in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-32]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

NOTE: Complete Used Oil Generator and any other applicable used oil handler checklist (e.g., marketer, burner, etc.) for used oil collection centers and aggregation points.
