Mr. Charles Schwaben
DOVES LLC
52427 County Road 26
Clarington, Ohio 43915

Dear Mr. Schwaben:

On March 9, 2011, Ohio EPA received a complaint alleging that DOVES LLC was allowing oil and grease from cleaning mining equipment to enter Possum Creek. On April 5, 2011, John Rochotte and I performed a complaint investigation and a compliance inspection of your company to determine its compliance with Ohio's hazardous waste laws and regulations as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC).

Based on the complaint investigation and compliance inspection, DOVES LLC was found to be in violation of the regulations cited below. A notice of violation letter regarding the hazardous waste violations was sent to you on April 15, 2011 and I received your response on May 16, 2011. Based on the documentation included with your letter, including hazardous waste manifests, used oil and spent bulb receipts and photographs of the drum you now accumulate your hazardous paint waste in, you have returned to compliance with the following regulations:

- (i) Hazardous waste determination, OAC rule 3745-52-11
- (ii) Off-site shipments of used oil by generators, OAC rule 3745-279-24
- (iii) Used oil storage requirements for generators, OAC rule 3745-279-22(C)

DOVES LLC has therefore abated all violations cited from the April 2011 investigation/inspection. If you have any waste, recycling or compliance questions, please call me at (740) 380-5278.
