Dear Mr. Hardesty:

Thank you for your responses received November 5 and December 3, 2007 to Ohio EPA's October 3, 2007 Notice of Violation letter. The documentation you submitted included recent analytical results for certain waste streams, a revised contingency plan, a photograph of a properly labeled satellite accumulation area, documentation that universal waste lamps have been properly handled and employees trained in handling them, and land disposal restriction documentation.

My review of this documentation reveals that Mahle Engine Components has now abated all violations discovered during the September 27, 2007 inspection. Should you have any questions, feel free to contact me at (740) 380-5293.

Sincerely,

Donna Goodman
District Representative
Division of Hazardous Waste Management
