**RE: Request for Termination  
Director's Final Findings & Orders: December 7, 2009  
Miba Bearings US LLC (OHD004288056)**

Dear Mr. Anderson:

Ohio EPA has received your April 15, 2010, request for termination of the above referenced Director's Final Findings and Orders (Orders). The Orders required Miba Bearings US LLC (Miba) to pay a civil penalty of \$23,550.00 and complete a Supplemental Environmental Project (SEP) in lieu of paying an additional \$8,000.00 in civil penalty. On December 21, 2009, Ohio EPA received the civil penalty payment.

The SEP consisted of relocating an accumulation area where used oil had been leaking from totes being used to store contaminated scrap metal. Miba was required to submit a report describing the steps that were taken to clean the former scrap pad accumulation area and describe the new scrap metal management and storage procedures. The report was also to include information regarding any reduction in the quantity of oily wastewater generated at the facility as a result of the new scrap metal management procedures. This report was received by Ohio EPA on January 25, 2010.

Ohio EPA has evaluated the report and has determined that Miba has satisfied the requirements of the Orders. Ohio EPA, therefore, acknowledges the certification in your April 15, 2010, letter that compliance with the Orders has been achieved and considers Miba's obligations under the December 7, 2009, Director's Final Findings and Orders to be terminated.
