Re: Return to Compliance – Philo High School

Dear Mr. Walden:

Thank you for your December 5, 2007 response to Ohio EPA's November 23, 2007 Notice of Violation letter. The documentation you submitted included a copy of a service agreement with Safety-Kleen for a washing system to clean paint brushes and wood finishing brushes, and a copy of an agreement with Cintas for commercial laundering and management of shop rags. You also indicated that the next time sludge is removed from Philo High School's on-site wastewater treatment plant, the sludge will be evaluated to determine if it is a hazardous waste, and the results of the waste evaluation will be forwarded to this office.

My review of the documentation submitted reveals that Philo High School has abated the violation discovered during the November 8, 2007 hazardous waste inspection.

GENERAL COMMENTS

- (a) Please note that when furniture stripping wastes (spent stripper paint sludges, paint chips, and other residues) are generated in the woodworking shop, these wastes must also be containerized and evaluated to determine if they are hazardous wastes prior to their disposal.

Mr. Robert Walden
Franklin Local School District
