Dear Mr. Killiany:

On April 21, 2010, Tammy McConnell and I performed a hazardous waste inspection of your company to determine its compliance with Ohio's hazardous waste laws and regulations as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC).

Based on the observations and documentation reviewed during the investigation, Ohio EPA issued a notice of violation letter to you on April 27, 2010. On May 17, 2010, I received your response via email which included analytical results for the used polyester litho plates. This documentation demonstrates your compliance with the following previously-cited regulation:

- (i) OAC rule 3745-52-11, Hazardous waste determination.

You have now abated all violations cited from the April 21, 2010 inspection.

Additional information on the hazardous waste rules, pollution prevention assessments and other useful information is available on Ohio EPA's website at www.epa.state.oh.us. If you have any questions regarding waste management or pollution prevention activities, please call me at (740) 380-5278. If you have any pollution prevention questions or would be interested in a pollution prevention assessment, please call Donna Goodman at (740) 380-5293.

Sincerely,

Richard Stewart
District Representative
Division of Hazardous Waste Management

RS/mlm

NOTICE:

Ohio EPA's failure to list specific deficiencies or violations in this letter does not relieve your company from having to comply with all applicable regulations.
