Dear Mr. Miller:

Ohio EPA received a complaint alleging that used oil had been released to soils at your location. On July 6, 2010, I performed a complaint investigation of your company with the Division of Surface Water personnel to determine the validity of the complaint and your compliance with Ohio's hazardous waste regulations, as found in the Ohio Revised Code (ORC) and the Ohio Administrative Code (OAC).

During this investigation, we observed some spillage of used oil and violations of the used oil regulations and a Notice of Violation letter was sent to you on August 20, 2010. On November 23, 2010, I received photographs documenting the cleanup of used-oil contaminated soils and disposal receipts for that soil from Suburban Landfill. Based on this documentation, you have returned to compliance with the following regulation:

- (i) Used oil storage requirements for generators, OAC Rule 3745-279-22(D).

You have now abated all hazardous waste violations cited from the July 6, 2010 investigation.
