Mr. William Hill
H & R Tool & Machine Co., Inc.
18 Jefferson Street
Zanesville, Ohio 43702-1444

Dear Mr. Hill:

On October 14, 2010, I performed an inspection of your company to determine its compliance with Ohio's hazardous waste laws and regulations as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC).

Based on our observations, I sent a notice of violation letter to you on October 18, 2010. On December 22, 2010, I re-visited your facility to observe your cleanup of the used-oil-contaminated soils around your used oil tank. Based on my observations, you have abated the violation of the following hazardous waste regulation:

- (i) Used oil storage requirements for generators, OAC Rule 3745-279-22(D).

Therefore, H&R Tool & Machine Co. has returned to compliance with all regulations cited from my October 2010 inspection.

If you would like additional information regarding Ohio EPA's laws regarding auto maintenance activities, please go to the following website at www.epa.ohio.gov/portals/41/sb/publications/automaintenance.pdf. Additional information on the hazardous waste rules, pollution prevention assessments and other useful information is available on Ohio EPA's website at www.epa.state.oh.us. If you have any questions regarding waste management or pollution prevention activities, please call me at (740) 380-5278.

Sincerely,

Richard Stewart
District Representative
Division of Hazardous Waste Management

RS/jg

NOTICE:

Ohio EPA's failure to list specific deficiencies or violations in this letter does not relieve your company from having to comply with all applicable regulations.
