**MUSKINGUM COUNTY
AMERICAN LIGHTING

Mr. Ed Block
American Lighting Company
122 Main Street
Zanesville, Ohio 43701-3422

Dear Mr. Block:

On July 23, 2009, I performed a compliance inspection of American Lighting Company to determine its compliance with Ohio's hazardous waste laws and regulations as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC).

Based on our observations and the documentation reviewed from the inspection, Burnham is in violation of the following regulations. Please provide the documentation requested below within thirty days of the date of this letter:

- (1) **OAC rule 3745-273-14 Labeling/marking - standards for small quantity handlers of universal waste.** A small quantity handler of universal waste shall label or mark the universal waste to identify the type of universal waste as specified in this rule: (A) Universal waste batteries each battery or container of batteries must be labeled or marked clearly with the words "Universal waste-Battery(ies)" or "Waste Battery(ies)" or "Used Battery(ies)". (E) Each lamp or a container or package in which such lamps are contained must be labeled or marked clearly with one of the following phrases: "Universal Waste-Lamp(s)," or "Waste Lamp(s)," or "Used Lamp(s)."

The containers of spent batteries and bulbs we observed were not labeled as required. I understand that labels are affixed prior to shipment to Veolia, but the rule requires that the containers be labeled as they are accumulated. To demonstrate compliance, please provide photographs indicating that containers of batteries and bulbs are labeled as required.

- (2) **OAC rule 3745-273-15 Accumulation time limits:** (C) A small quantity generator of universal waste who accumulates universal waste shall be able to demonstrate the length of time that the universal waste has been accumulated from the date it becomes a waste.

American Lighting Company

Page 2

During the inspection, we did not see evidence that the earliest date of accumulation for the universal waste lamps had been recorded. This could be marked on the containers or posted in the area where the containers are accumulated. Please provide photographic documentation that the containers or storage area indicate the accumulation start date.

Other issues:

During the inspection, we observed the remains of a broken lamp in your storage area. Broken lamps are required to be contained immediately and properly disposed. Please provide a photograph showing that the broken bulb has been properly cleaned up.

I have attached a factsheet regarding universal waste management and the compliance checklist that I used to evaluate your facility.

Additional information on the hazardous waste rules, pollution prevention assessments and other useful information is available on Ohio EPA's website at www.epa.state.oh.us. If you have any questions regarding waste management or pollution prevention activities, please call me at (740) 380-5278. If you have any pollution prevention questions or would be interested in a pollution prevention assessment, please call Donna Goodman at (740) 380-5293.

Waste Codes for Federally Regulated Hazardous Wastes. Please list the codes for the federally regulated hazardous waste handled at your site. List them in the order they are presented in the regulations (e.g., D001, D003, F007, U112). Use an additional page if more space is needed. If there are more than 7 waste codes and they are the same as listed in the most recent RCRAInfo source record, you do not need to list them all. Instead just indicate the date of the most recent source record.
