Mr. Don Pickinpaugh
Fink's Southside Collision Repair, Inc.
2879 Maysville Pike
Zanesville, Ohio 43701

Dear Mr. Pickinpaugh:

On September 26, 2008, I performed an inspection to determine Fink's Southside Collision Repair compliance with Ohio's hazardous waste laws regulations as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC).

Based on this inspection, the following violations of the hazardous waste rules were found:

- 1) **OAC Rule 3745-279-22(C), Used oil storage requirements for generators:** Containers and aboveground tanks used to store used oil at generator facilities shall be labeled or marked clearly with the words, "Used Oil."

Several drums of used oil that we observed were not labeled properly. Please provide photographs of your drums showing that they are properly labeled.

Other Compliance Issues:

- a) We observed unlabeled drums with unknown contents. The content of these drums must be determined; if they are wastes, you must determine whether they are hazardous waste per OAC rule 3745-52-11. Please let me know if any of the drums contain hazardous waste.
- b) I have attached a fact-sheet on how to manage you spent fluorescent bulbs.

Please provide the information requested above **within 30 days** of the date of this letter.

[Facility Name/Inspection Date]
 [ID number]
 SQG/February 2007
 Page 1 of 4

- a. Does the contractual agreement specify the type of waste and frequency of shipment? Yes No N/A
- b. Is the transport vehicle owned and operated by the reclaimer? Yes No N/A
- c. Is a copy of the reclamation agreement kept on-site for at least three years after termination/expiration of the agreement? Yes No N/A

NOTE: If wastes are reclaimed under a contractual agreement and an answer to questions 10(a) through 10(c) is no, the generator is in violation of 3745-52-20 (A) (B) & (D), 3745-52-22 and 3745-52-23. Even if the waste is being reclaimed under agreement, LDRs still apply. Complete LDR checklist.

11. Have items 1 through 20 of each manifest been completed?[3745-52-20(A)] Yes No N/A

NOTE: U.S. EPA Form 8700-22(A) (the continuation form) may be needed in addition to Form 8700-22. In these situations, items (21) through (35) must also be complete. [3745-52-20 (A)]

12. Does each manifest designate at least one facility which is permitted to handle the waste? [3745-52-20(B)] Yes No N/A

NOTE: The generator may designate on the manifest one alternative facility to handle the waste in the event of an emergency which prevents the delivery of waste to the primary designated facility. [3745-52-20(C)]

14. Have the manifests been signed by the generator and initial transporter? [3745-52-23 (A) (1) and (2)] Yes No N/A

NOTE: Remind the generator that the certification statement they signed indicates: 1) they have properly prepared the shipment for transportation and 2) they have made a good faith effort to minimize their waste generation.

15. If the generator did not receive a return copy of each completed manifest within 60 days of being accepted by the transporter did the generator submit to Ohio EPA, a copy of the manifest with some indication that the generator has not received confirmation of delivery? 3745-52-42(B)] Yes No N/A

16. Are signed copies of all manifests being retained for at least three years? [3745-52-40] Yes No N/A

NOTE: Waste generated at one location and transported along a publicly accessible road for temporary consolidated storage or treatment on a contiguous property also owned by the same person is not considered "on-site" and manifesting and transporter requirements must be met. To transport "along" a public right-of-way the destination facility has to act as a transfer facility or have a permit because this is considered to be "off-site." For additional information see the definition of "on-site" in OAC rule 3745-50-10.
