Dear Rex:

Thank you for your December 13, 2007 response to Ohio EPA's November 6, 2007 Notice of Violation (NOV) letter. The documentation you submitted included a revised contingency plan, a purchase agreement with Metallo Chemique, a letter from Heartland Petroleum concerning handling off-spec used oil, and F006 sludge analytical results.

My review of this documentation reveals that Mahle Engine Components has abated the following violation discovered during the October 30, 2007 inspection:

(1) OAC Rule 3745-65-54, Amendment of Contingency Plan

Mahle Engine Components has now resolved all violations resulting from the October 30, 2007 inspection.

If you have any questions, please feel free to contact me at (740) 380-5288.

Sincerely,

Scott N. Bergreen
