Mrs. Barb Gray, Clerk
Malta Township Garage
2817 Conk Palmer Road
Malta, Ohio 43758

Dear Mrs. Gray:

On May 6, 2008, Ohio EPA inspected the Malta Township Garage located at Front and 11th Street in Malta, Ohio to determine the township's compliance with Ohio's hazardous waste laws as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC). The township was represented by employee Barry Earich.

I found the following violations of the Ohio Administrative Code (OAC):

- (1) **OAC Rule 3745-279-22 (C), Used Oil Storage Requirements for Generators: (C)**
Used oil must be stored in containers that are labeled with the words "used oil. One drum of used oil inside the garage was not labeled. This was labeled during the investigation; therefore, this violation has now been abated.

General Comments

- (a) As a generator of used oil, you must maintain in your files receipts for all offsite shipments of used oil to a recycler. You may self transport no more than 55 gallons at a time of your used oil in your company vehicle or your own vehicle or that of one of your employees. Used oil must be delivered to a used oil collection center that is registered with the Ohio EPA to manage used oil. If you have your used oil transported by someone other than as described above, the transporter must have obtained a USEPA ID number. In other words, you cannot provide your used oil to someone who is using it for heating oil unless they have the proper EPA registration and have done the proper analysis to determine that your used oil is not contaminated with excess levels of hazardous waste. You may find a list of registered used oil recyclers at the following link:
