Mrs. Kathy Watkins
Watkins Truck and Parts
8369 US Route 50
Bainbridge, Ohio 45612

Dear Mrs. Watkins:

On March 19, 2010, Ohio EPA conducted an investigation of Watkins Truck and Parts ("Watkins") in Bainbridge, Ohio in response to a complaint received by this office. The complaint alleged that automotive fluids were being disposed of on the ground behind the building. During the investigation, I observed areas where soils were heavily stained with oils. Based on this, I found the following violations of Ohio's hazardous waste rules. In order to correct these violations, you must do the following and send me the required information **within 30 days** of the date of this letter:

- (1) OAC Rule 3745-279-22 (D), Used Oil Storage Requirements for Generators:** Used oil generators who release used oil onto the ground must, upon detection of a release, stop the release, contain the released oil, clean up and properly manage the released oil, and ensure that storage containers are in good condition prior to returning them to service.

Watkins failed to stop, contain and cleanup numerous releases of used oil onto the ground behind the repair building and onto a concrete pad next to the building, where oil then runs onto the ground.

Watkins must immediately stop all releases of used oil onto the ground. In order to do this, you must completely drain all parts prior to putting them into storage bins, and develop a way to capture any oil that continues to drain onto the concrete pad or the ground from parts storage bins or from any activity where oil has the potential to be released. You must excavate all oily soils as well as oily residues on the concrete pad, containerize the soils, residue and cleanup materials, and dispose of them as a solid waste in your dumpster. In order to document compliance with this regulation, please submit to me photographs that document all areas where oil was cleaned up.

Mrs. Kathy Watkins
Watkins Truck and Parts

GENERAL COMMENTS

Ohio EPA has visited Watkins several times since December 2005 and cited your company for used oil violations. Watkins is a chronic violator of Ohio's used oil regulations. **Please note that continued violations could result in escalated enforcement actions against your facility that could result in fines and penalties.** Watkins must immediately modify its used oil management practices, including how automotive parts which leak oil are handled, in order to avoid releases of used oil to the environment. Sloppy operations, which are the cause of your used oil violations, can easily be corrected at little expense to your company.

Should you have any questions, please feel free to call me at 740-380-5293. You can find copies of the rules and other information on the division's web page at <http://www.epa.state.oh.us/dhwm>.

Sincerely,

Donna Goodman
District Representative
Division of Hazardous Waste Management

Waste Codes for Federally Regulated Hazardous Wastes. Please list the codes for the federally regulated hazardous waste handled at the site. List them in the order they are presented in the regulations (e.g., D001, D003, F007, U112). Use an additional page or list them in the comments if more space is needed. If the waste codes are the same as listed in the most recent RCRAInfo source record, you do not need to list them. Instead just indicate the date of the most recent source record.

COMMENTS: USE THIS AREA TO DESCRIBE WHETHER THE INSPECTION WAS ANNOUNCED, WHETHER THE WASTE IS STORED IN TANKS OR CONTAINERS, ETC.

Announced Yes No Additional Facility Representatives:
Tanks Yes No Used Oil containers only
Containers Yes No
