Dear Mr. Russell and Mr. Contezac:

On March 6, 2008, Ohio EPA conducted a complaint investigation of Active USA in Chillicothe, Ohio in response to a complaint received by this office. The complainant alleged that diesel fuel was being disposed of on the ground in your lot and that there were chronic sloppy operations.

Based on my investigation, I did not find any evidence of mismanagement of diesel fuel or chronic sloppy operations. However, I found the following violations of Ohio's hazardous waste laws:

- (1) **OAC Rule 3745-279-22,(C)&(D), Used Oil Storage Requirements for Generators:** (C) Containers of used oil must be labeled with the words "Used Oil"; (D) Upon detection of a release of used oil to the environment, a used oil generator must stop the release, contain the released used oil, clean up and properly manage the released used oil and materials used to clean up the used oil, and if necessary, repair or replace any leaking used oil storage containers prior to returning them to service for used oil storage.

(C) A one-gallon pail used for collection of used oil in the decking shop was not labeled with the words used oil. The container was labeled during the investigation; therefore, Active USA has now abated this violation.

Mr. Patrick Russell
Mr. Steven A. Contezac
Active USA

Page 2

(D) Used oil had spilled onto the concrete surface beneath the used oil storage tote. Spillage appears to occur when used oil is poured from a pail by employees into the small mouth of a 350-gallon tote located outside the shop. Active USA cleaned up the spilled oil and stained concrete and submitted photos as documentation to this office on March 6, 2008. Therefore, Active USA has now abated this violation. Ohio EPA recommends that Active USA either place a funnel in the opening of the tote or find an alternative method of transferring used oil so that spills can be avoided in the future. If you purchase a funnel with a lid, the tote can be kept closed to avoid collecting rainwater.

Should you have any questions, please feel free to call me at (740) 380-5293. You can find copies of the rules and other information on the division's web page at <http://www.epa.state.oh.us/dhwm>.

Sincerely,

Donna Goodman
District Representative
Division of Hazardous Waste Management

DG/mlm

11. Waste Codes for Federally Regulated Hazardous Wastes: Please list the codes for the federally regulated hazardous waste handled at the site. List them in the order they are presented in the regulations (e.g., D001, D003, F007, U112). Use an additional page if more space is needed. If there are more than 7 waste codes and they are the same as listed in the most recent RCRA Info source record, you do not need to list them all. Instead just indicate the date of the most recent source record.			
12. Comments: Use this area to describe whether the inspection was announced, whether the waste is stored in tanks or containers, etc.			
Announced	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No	Additional Facility Representatives:
Tanks	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No	Other Comments: Used oil containers
Containers	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
