Dear Ms. MacLeod:

Thank you for your July 25, 2007 response to Ohio EPA's June 28, 2007 Notice of Violation letter to Rite Aid regarding Rite Aid Drugstore #1897 in Wheelersburg, Ohio. The documentation you submitted included a waste evaluation for an equivalent waste stream at a Rite Aid Store in New Hampshire, a waste evaluation of residues from photographic chemical cartridges, a manifest for D002 residues from photographic chemical cartridges, and an estimate of the volume of this waste stream generated. Also included was a description of how Rite Aid #1897 is currently managing photo processing waste streams.

My review of this documentation reveals that Rite Aid #1897 has now abated all violations discovered during the June 20, 2007 complaint investigation.

Please note that Rite Aid should maintain in its files written permission from the Wheelersburg Wastewater Treatment Plant in order to dispose in to the sanitary sewer Rite Aid's nonhazardous wastewater from photographic chemical processing.

Should you have any questions, please feel free to call me at (740) 380-5293.

Sincerely,

Donna Goodman
District Representative
